## Packet

**Learn how to write lowercase letters in a simple way that builds naturally.**

# Packet

# INTRODUCTION

## Welcome to Your Handwriting Adventure!

Get ready to learn how to write letters in a way that's fun, easy, and makes sense! This packet is designed to help you master lowercase letters step by step, starting with the easiest ones and building up to the trickier ones.

Each letter comes with simple instructions to show you:

- **Where to Start:** Look for the green starting dot labeled "1" to begin the letter.
- **What Path to Follow:** Follow the arrows and dotted lines to guide your pencil.
- **Where to End:** Finish the letter with a smooth, clean stroke at the black dot.

We've grouped the letters into special categories to make them easier to learn:

1. **Straight Line Letters:** These letters are made with easy, straight strokes.
2. **Magic C Letters:** These letters are built using a simple "C" shape. Start here to get comfortable with curves!
3. **Hook Letters:** These letters combine a small curve (or "hook") with a straight line.
4. **Hill Letters:** These letters have rounded "hills" to make their shapes.
5. **Diagonal Letters:** These letters have slanted lines that are a bit more challenging.

## How to Use This Packet

1. **Practice Makes Perfect:** Trace each letter carefully. Start slow and focus on staying on the lines.
2. **Go at Your Own Pace:** Everyone learns differently. Take your time and move on when you feel ready.
3. **Check Your Progress:** After tracing, try writing the letters on your own using the blank lines provided.

By the time you finish, you'll have the skills and confidence to write all your lowercase letters beautifully. We encourage you to use the packet over and over to get practice with each letter.

**Let's get started and have fun on this handwriting journey!**

# STRAIGHT LINE

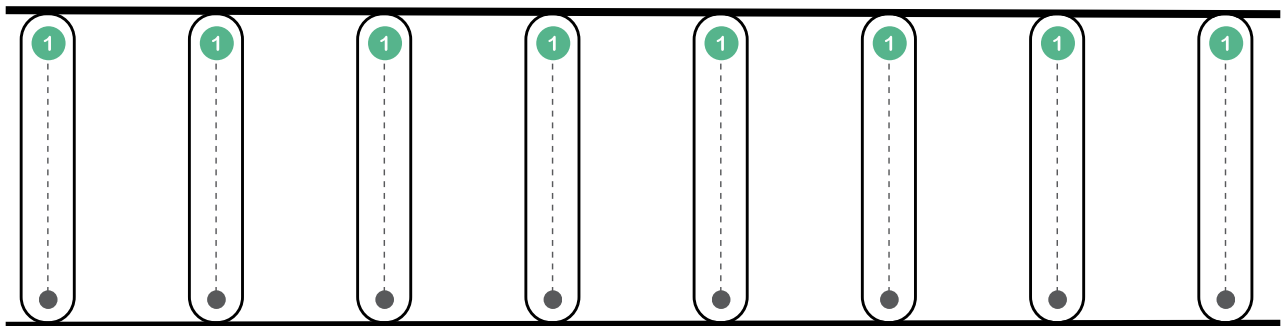

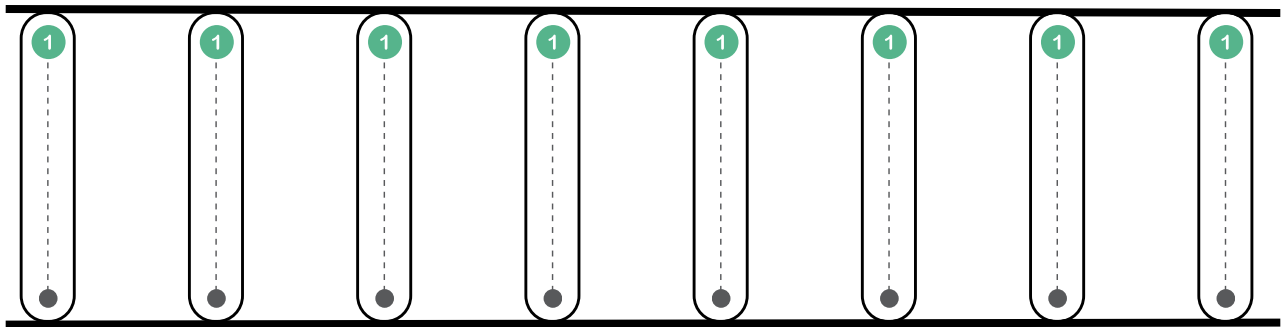

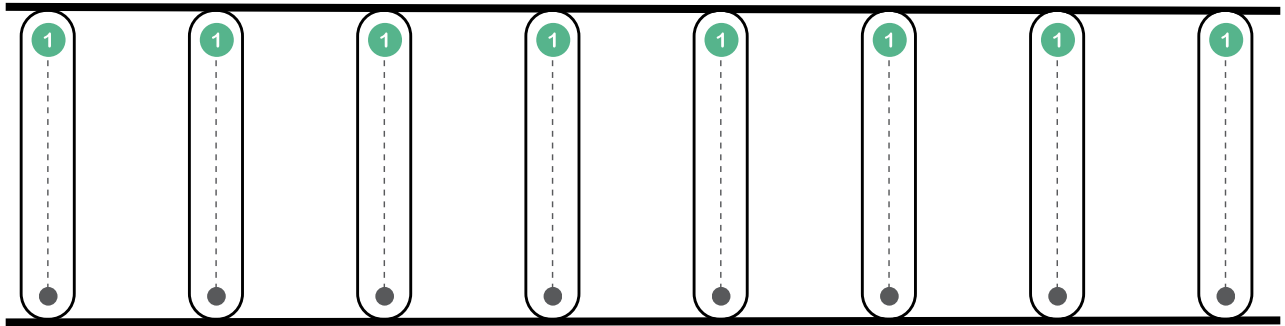

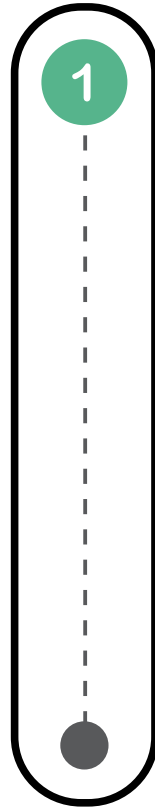

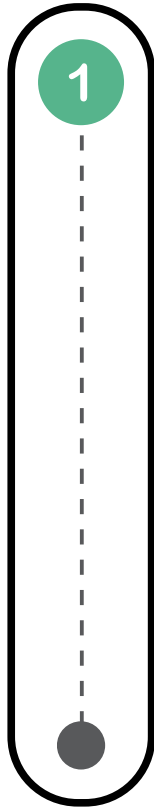

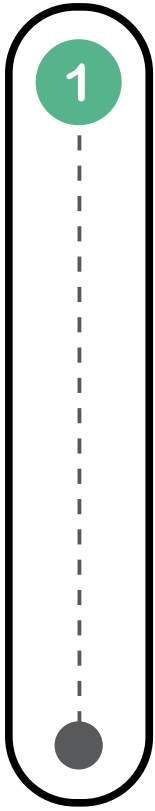

## Letters

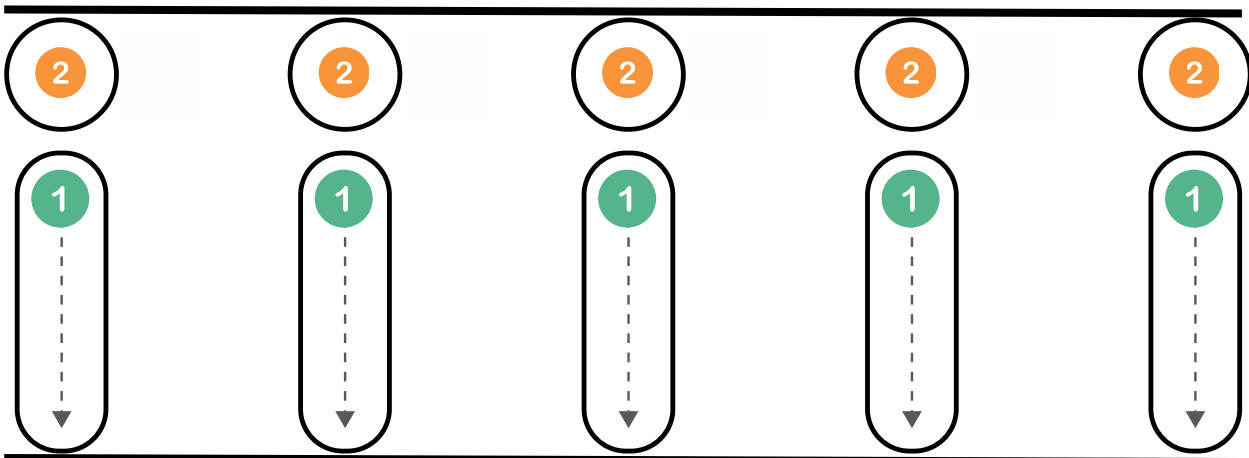

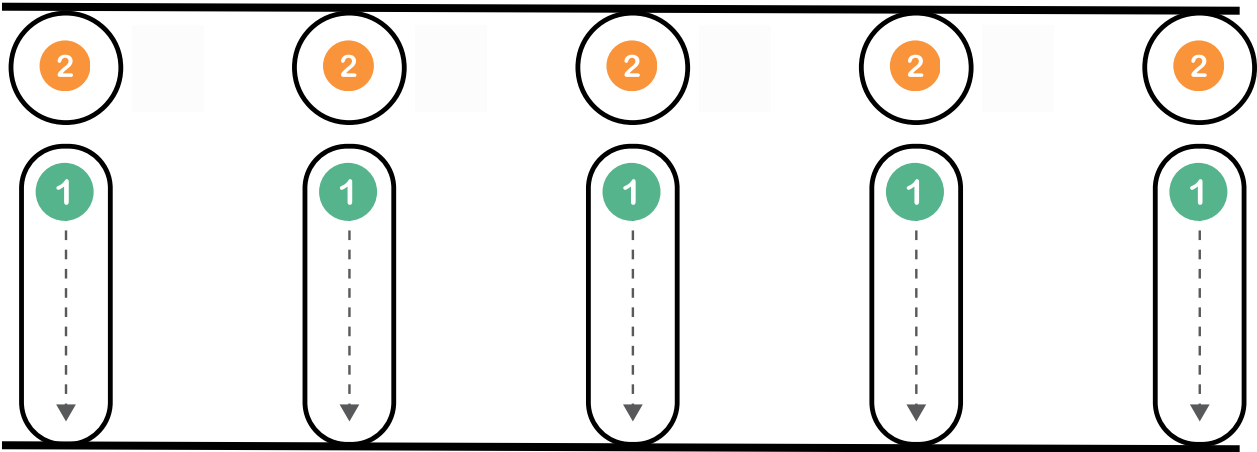

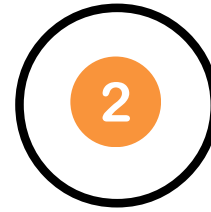

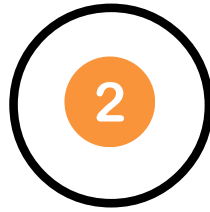

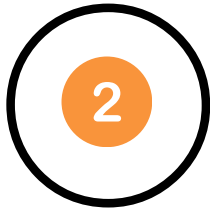

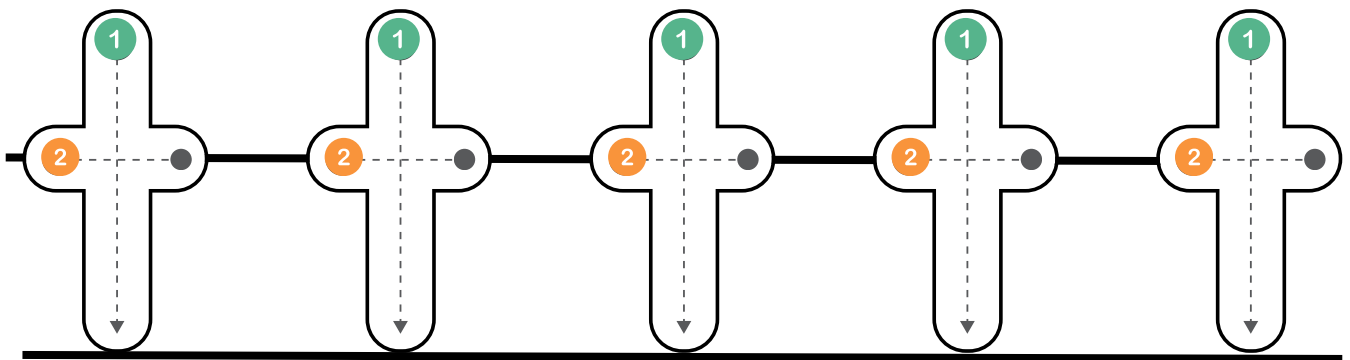

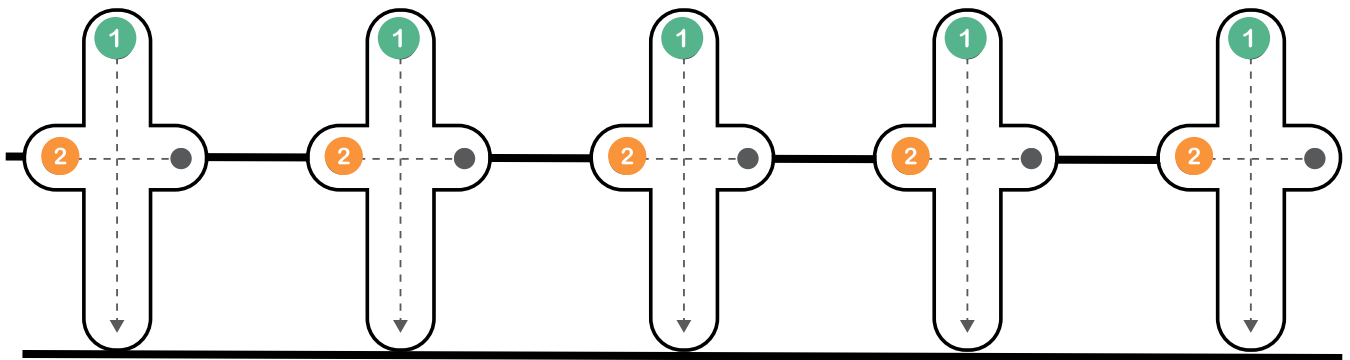

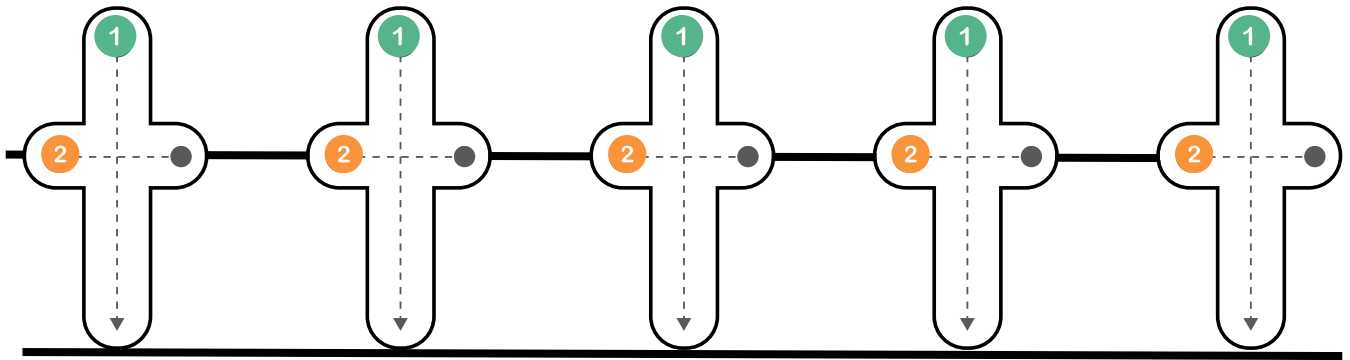

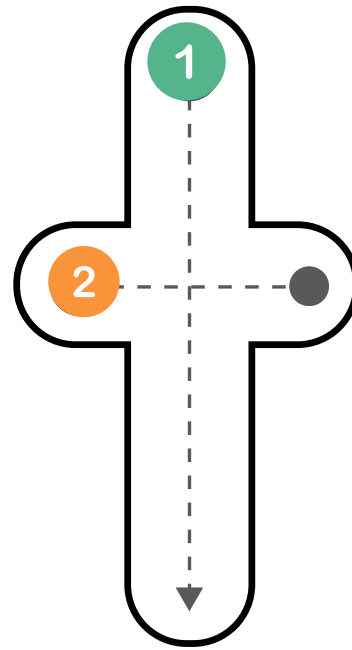

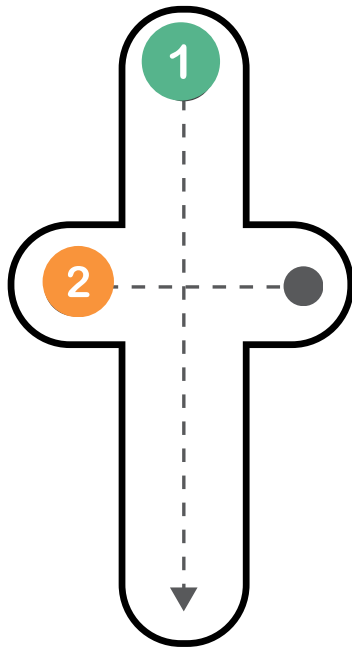

These are easy because they primarily use straight vertical and horizontal strokes.

lit

# MAGIC C

## Letters

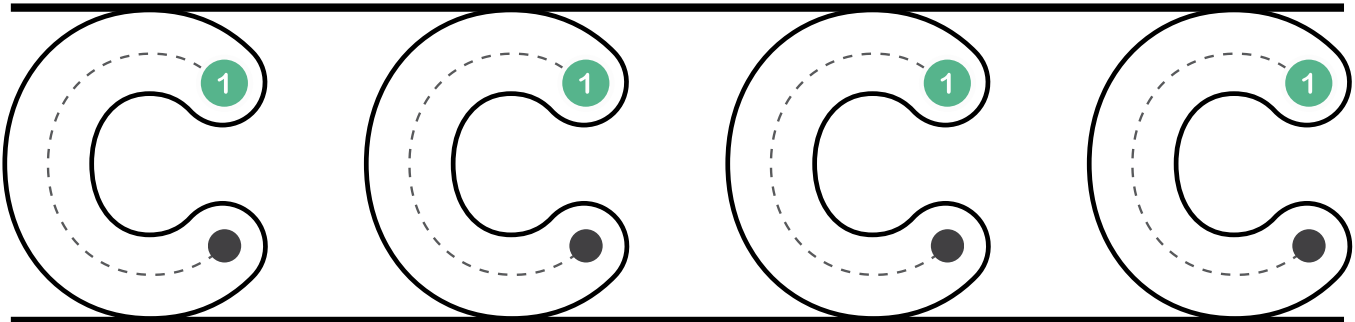

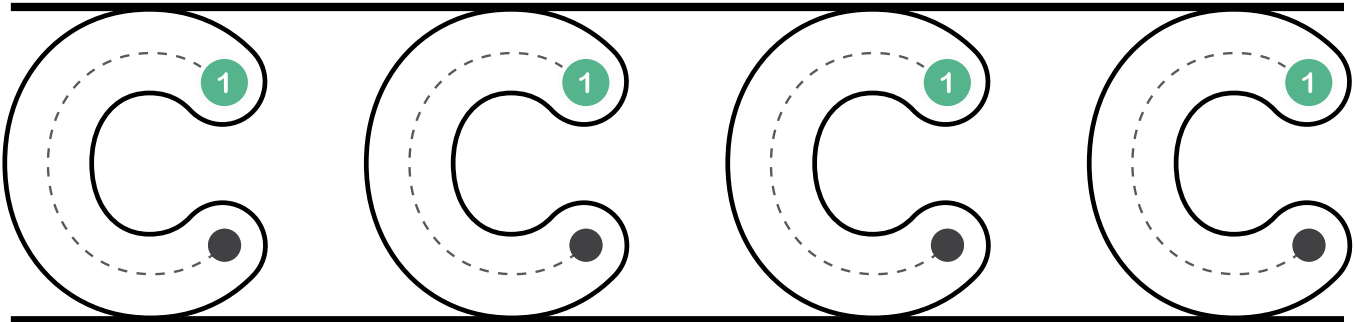

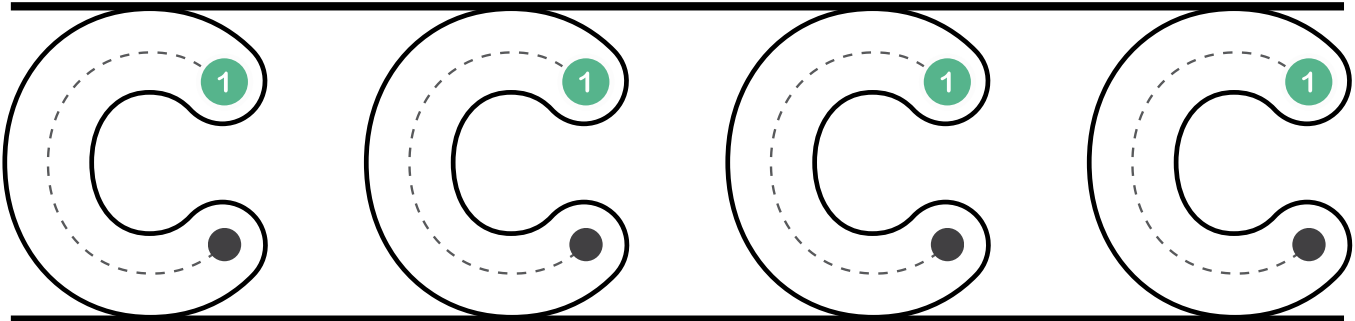

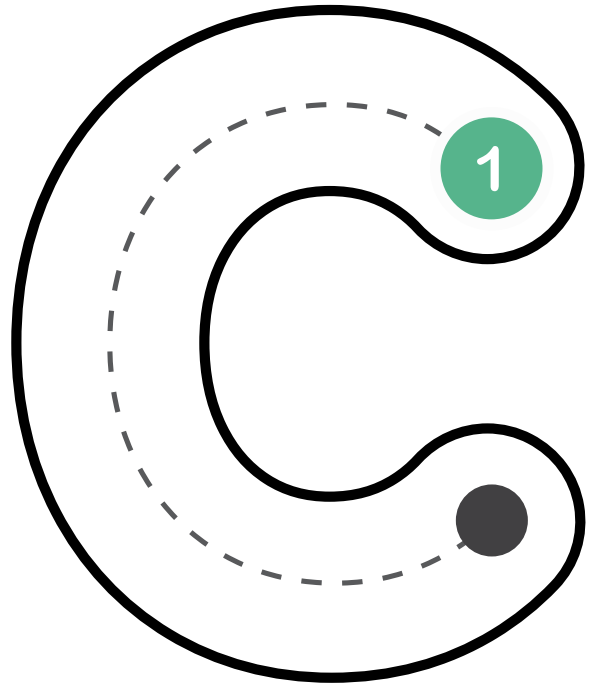

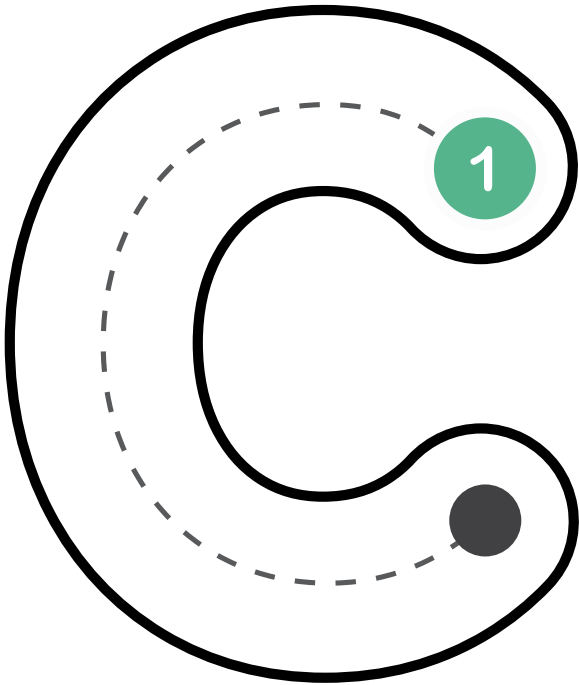

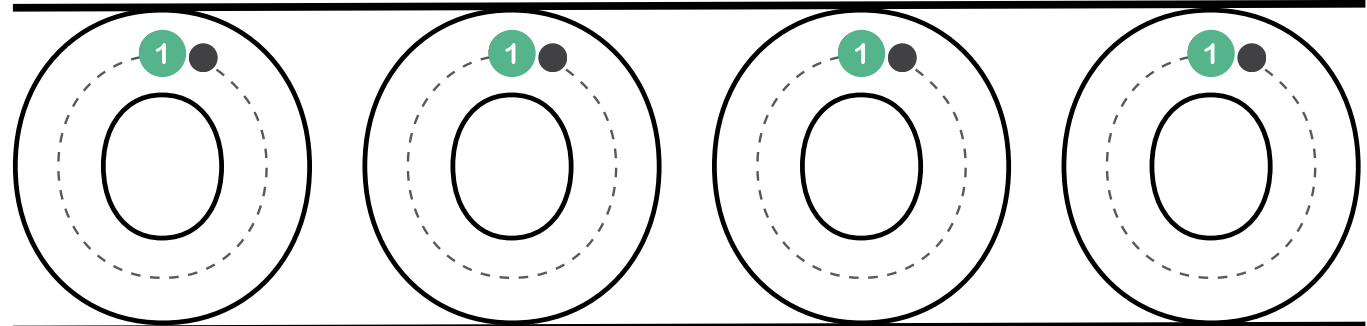

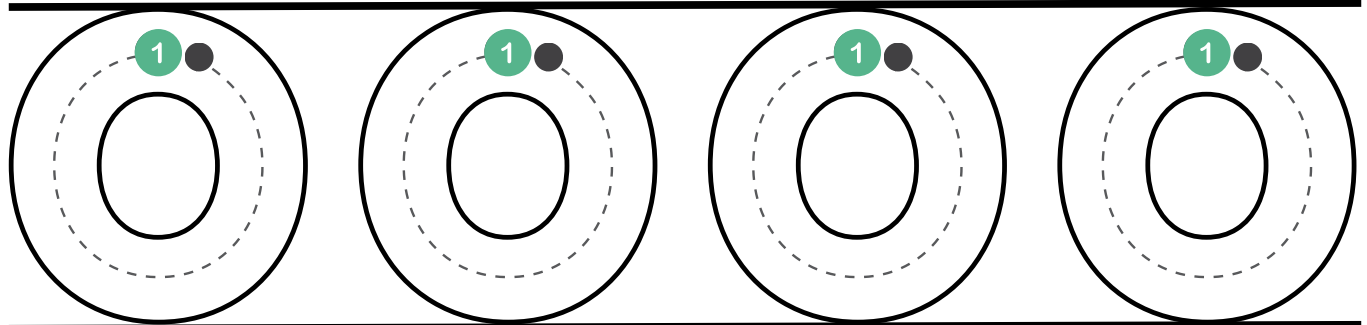

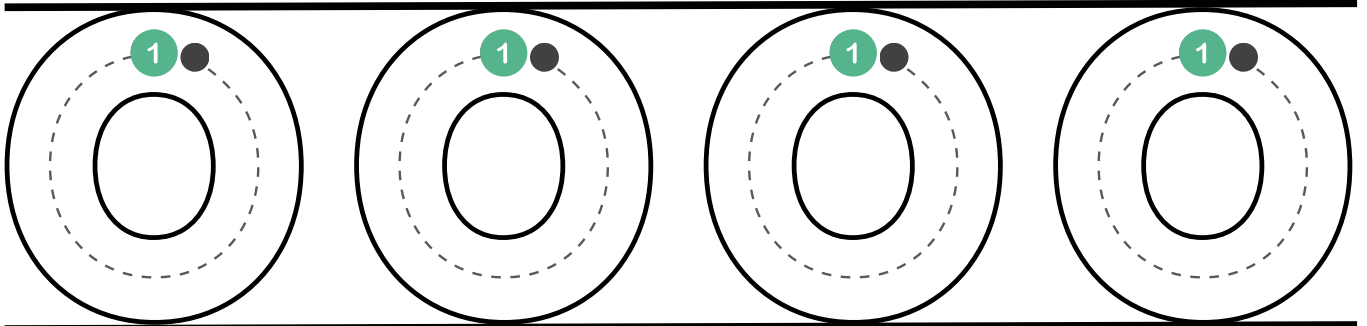

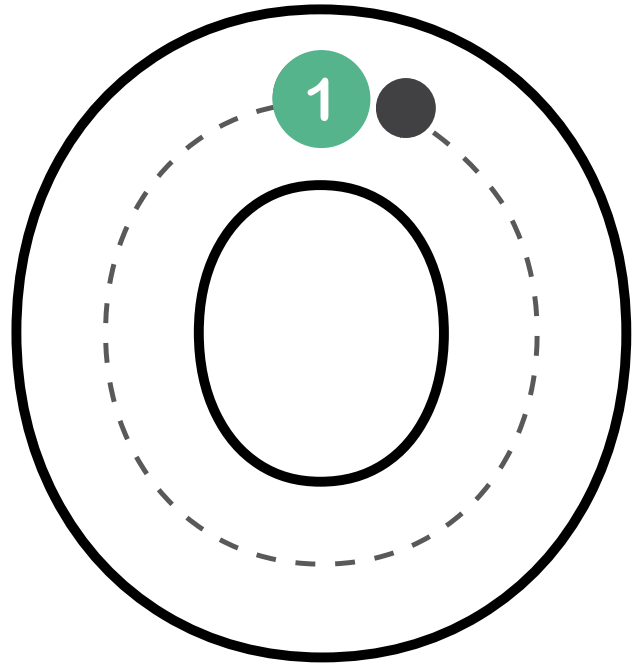

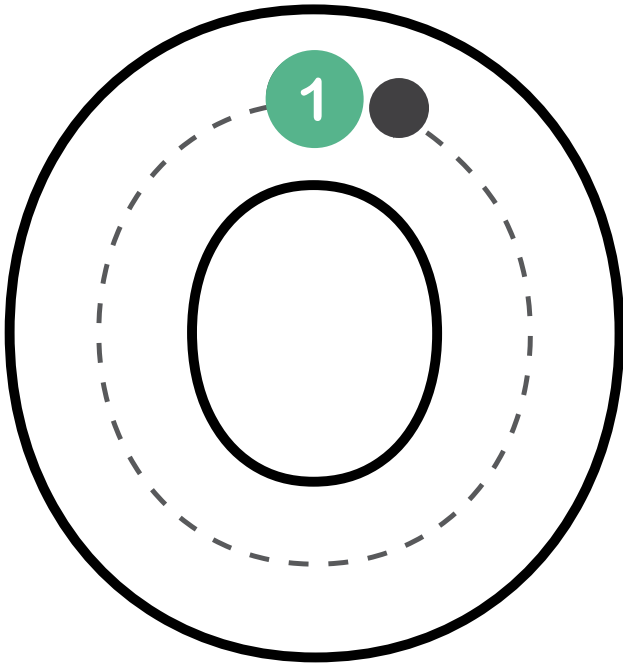

These letters are based on a simple "c" shape, which is easy for kids to form.

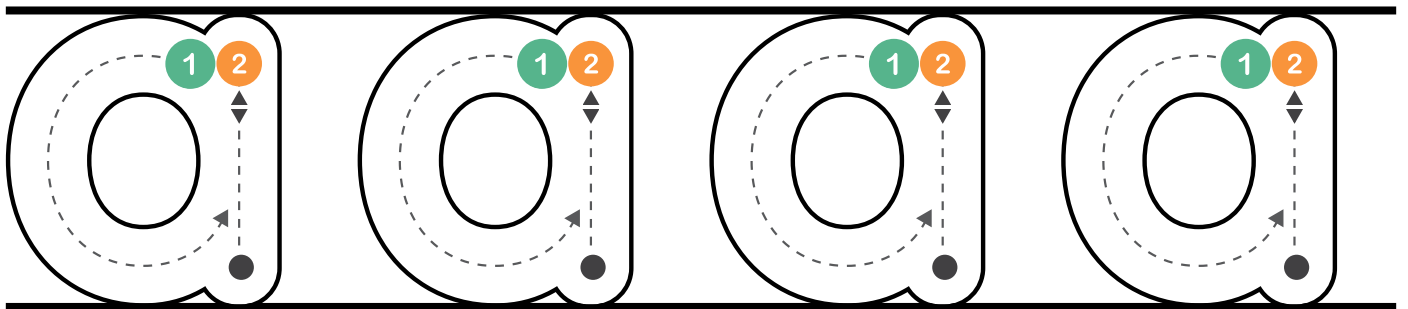

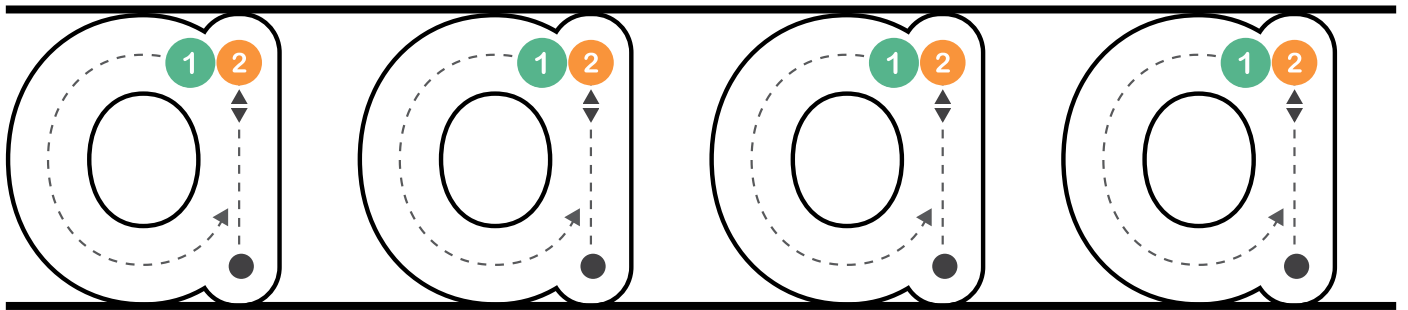

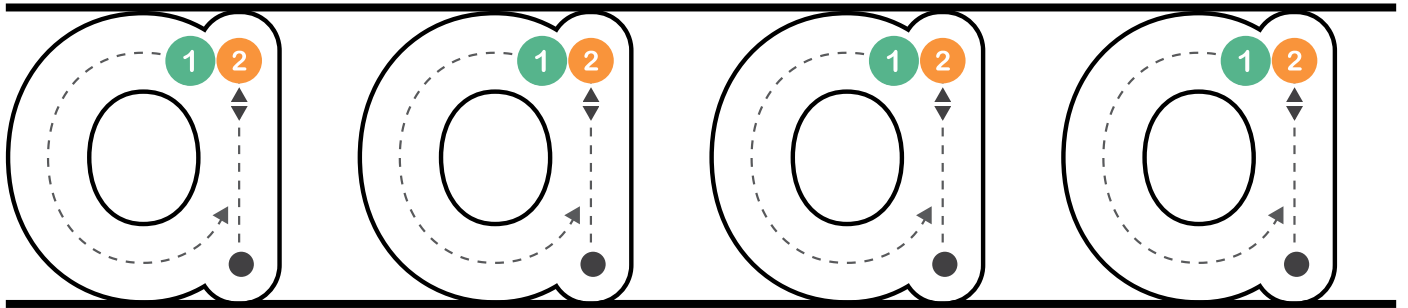

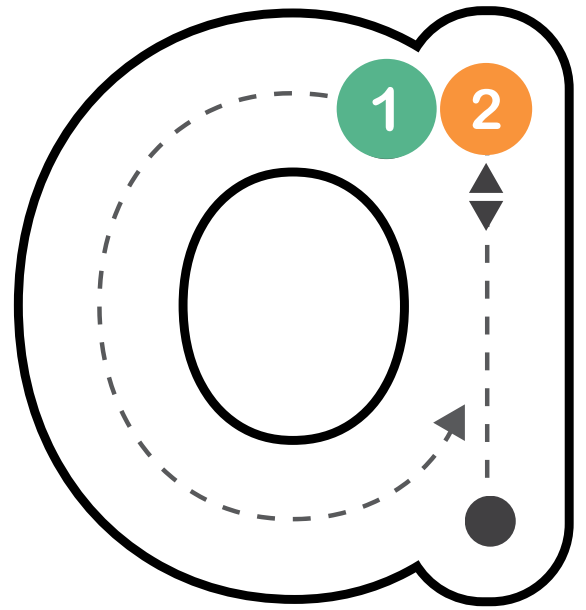

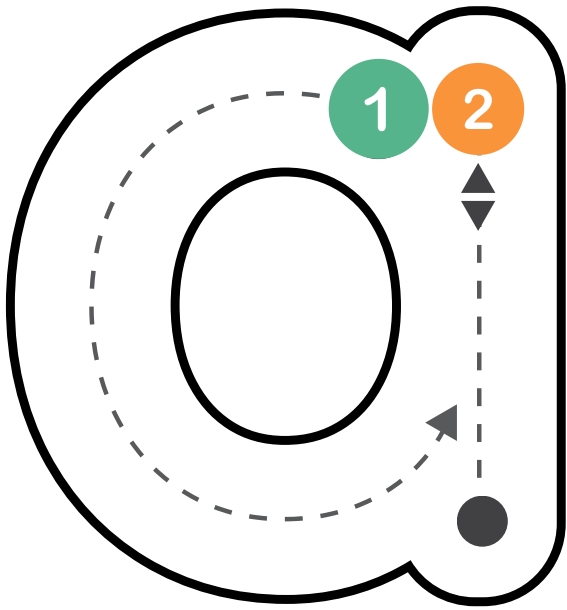

**c o a d g q e**

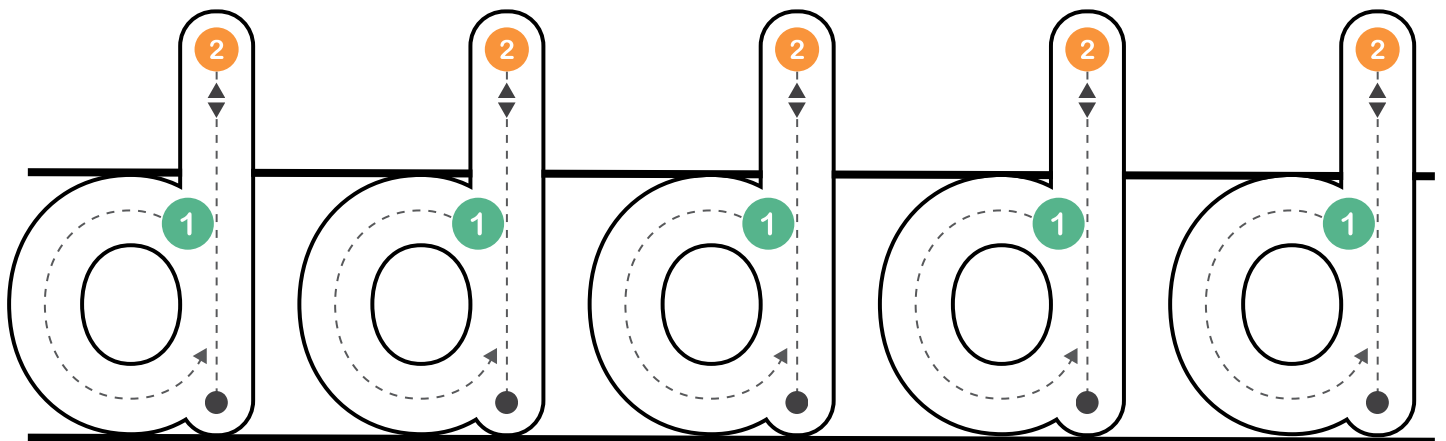

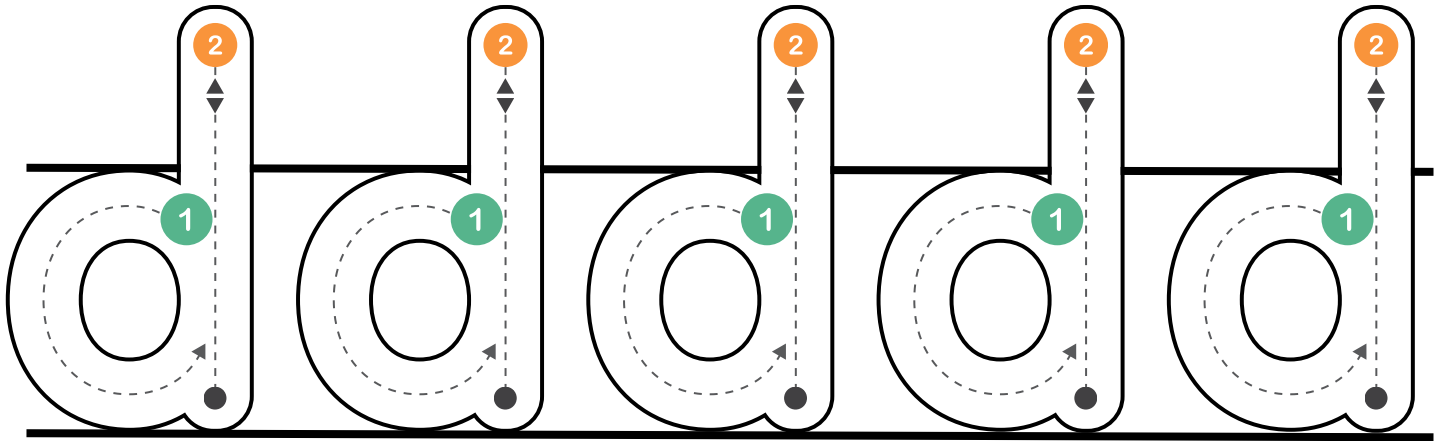

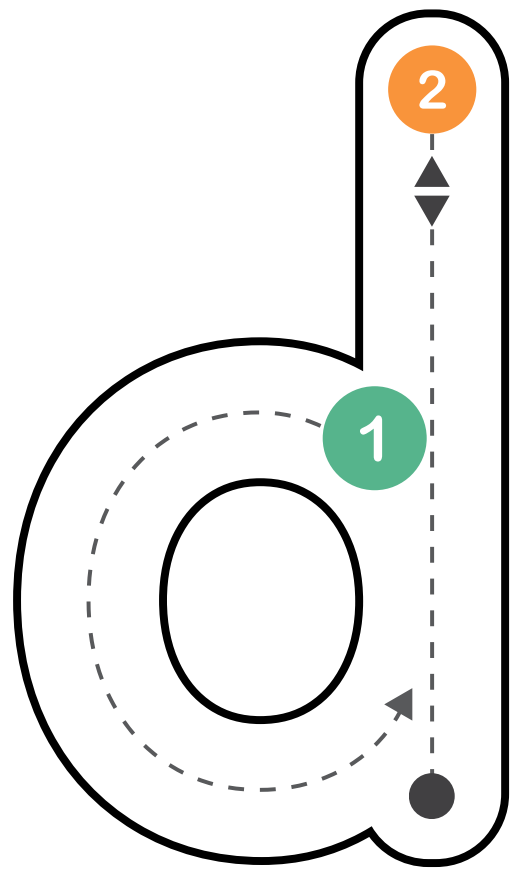

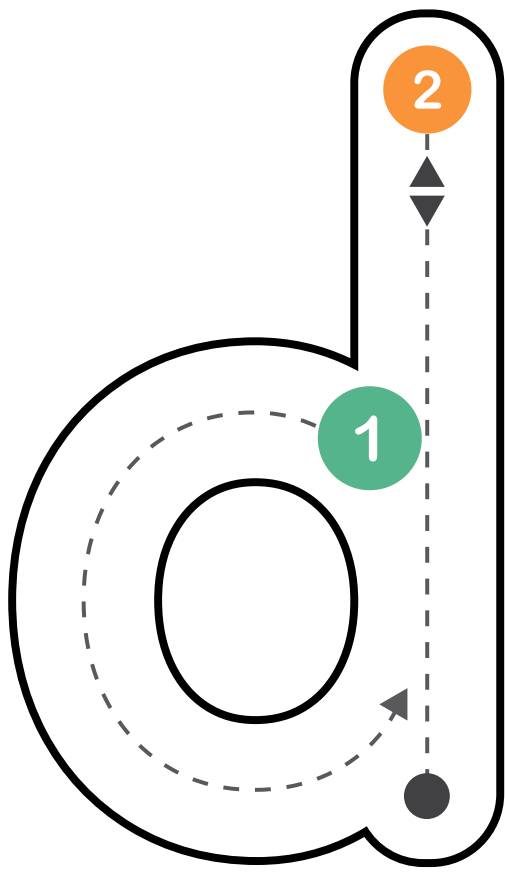

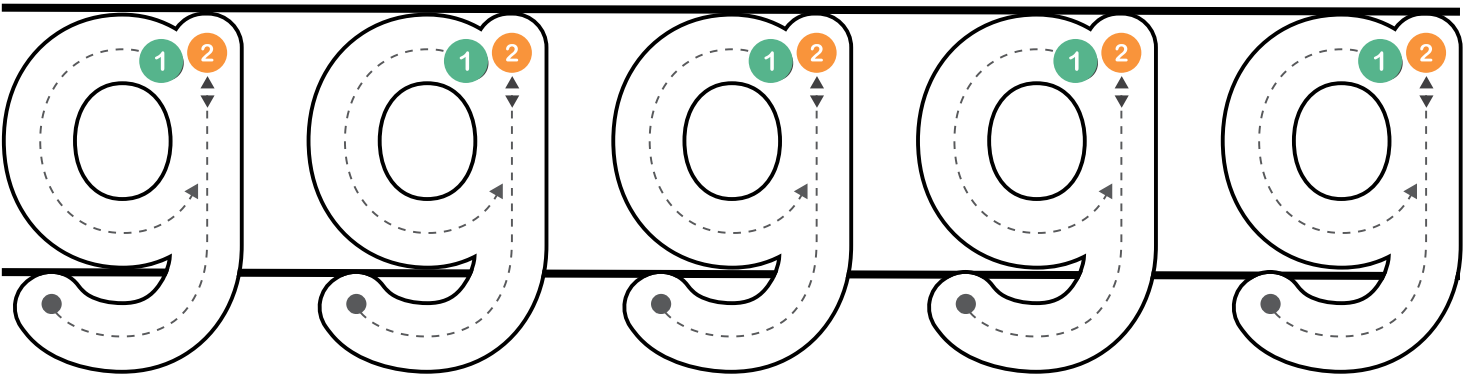

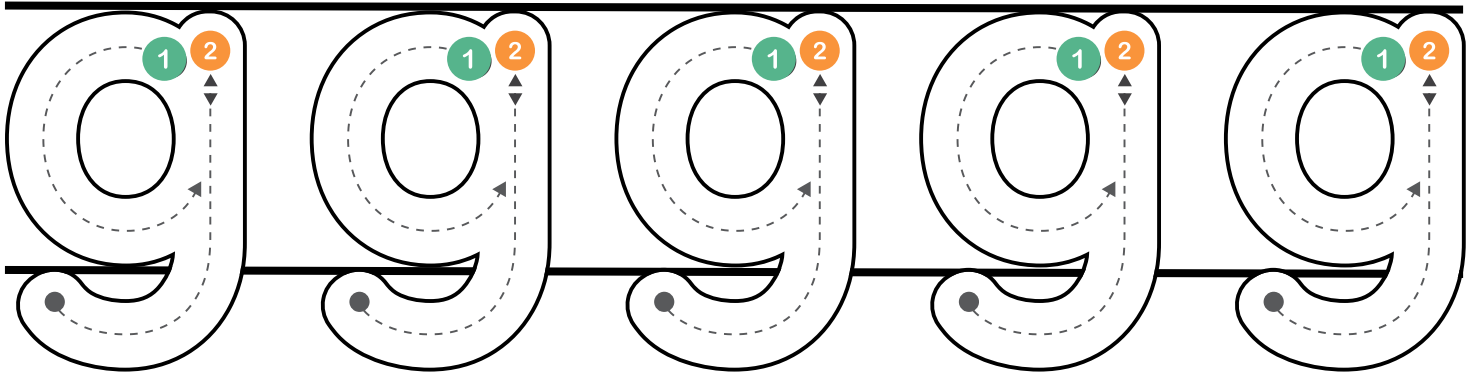

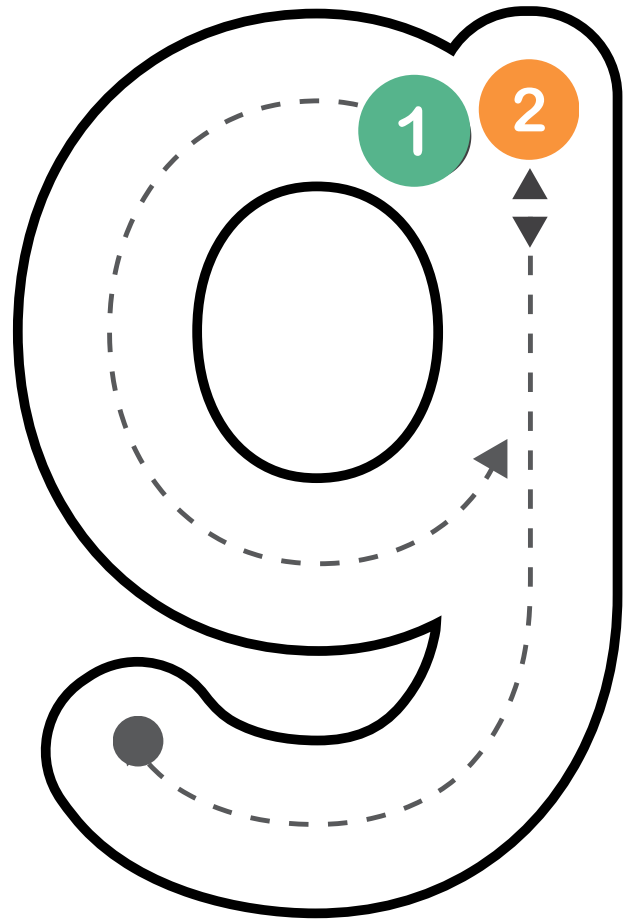

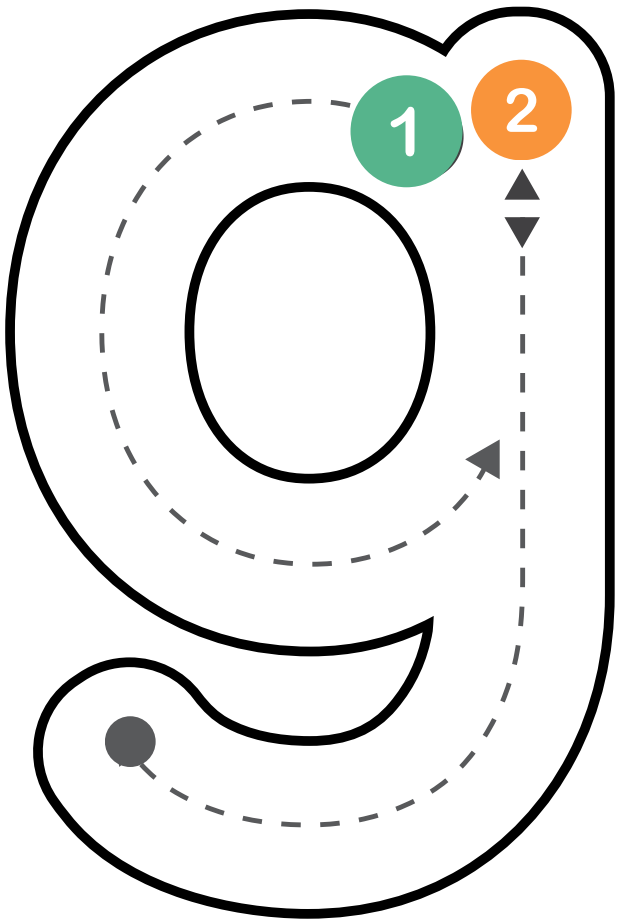

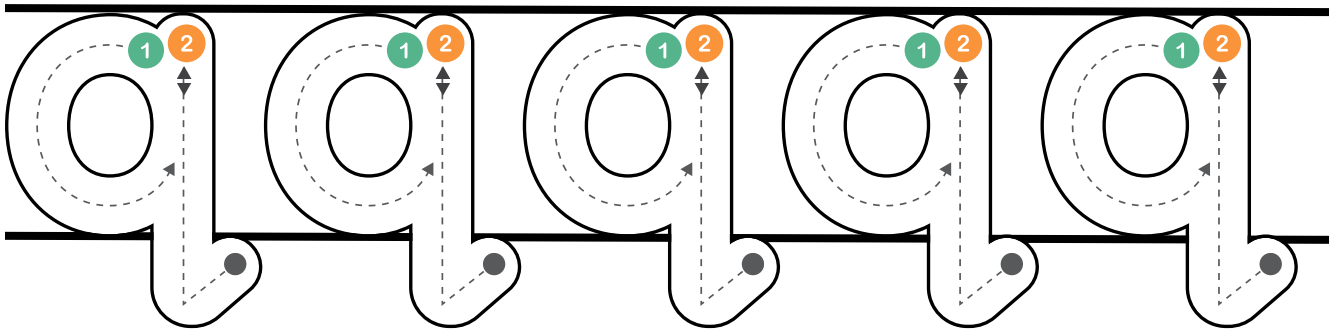

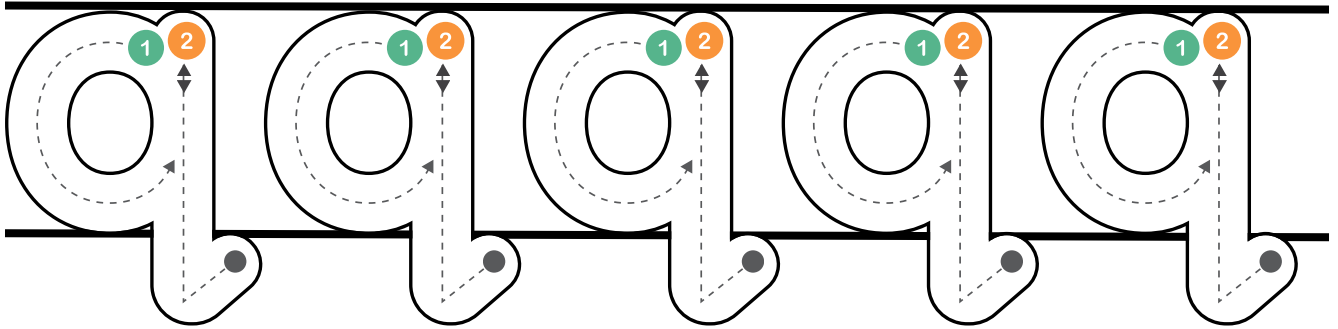

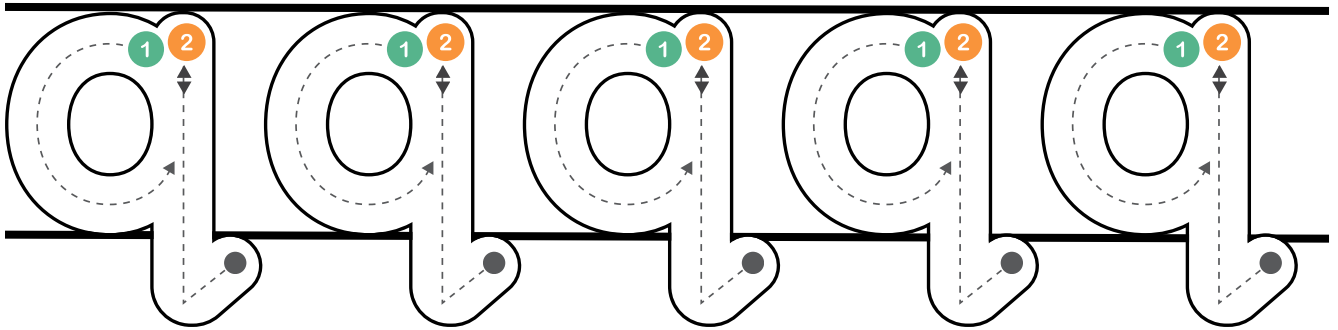

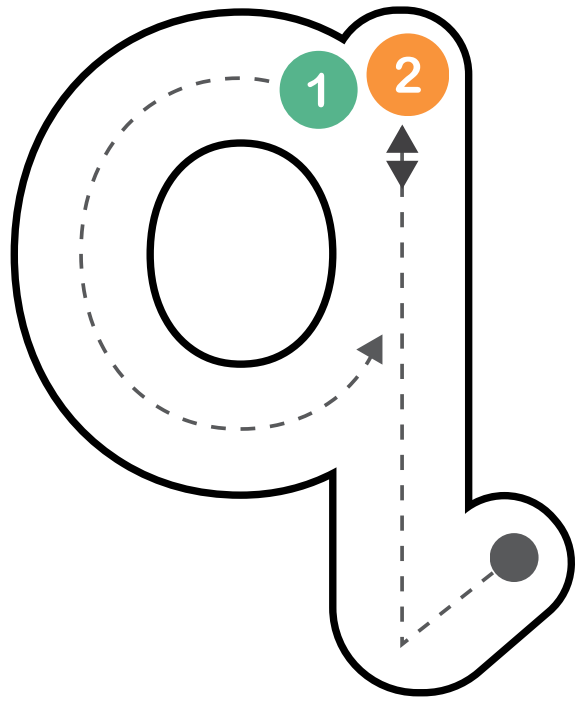

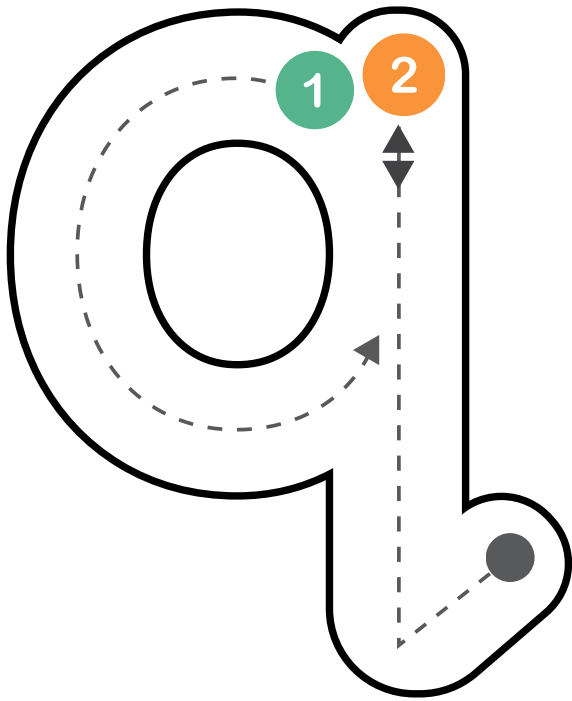

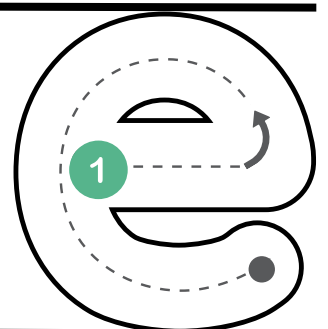

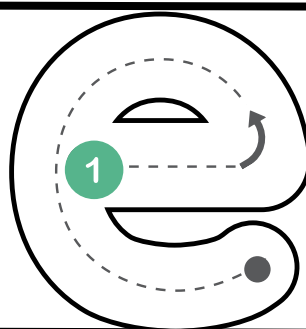

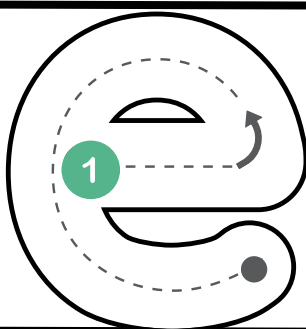

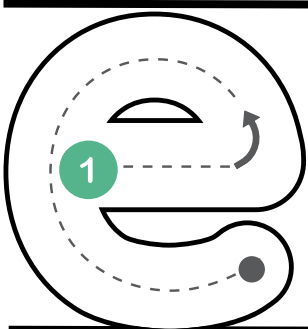

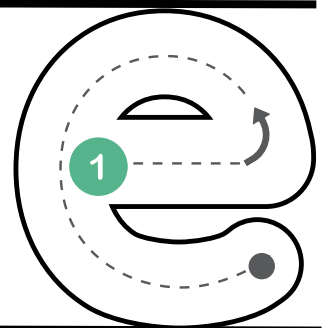

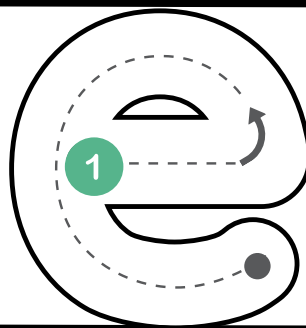

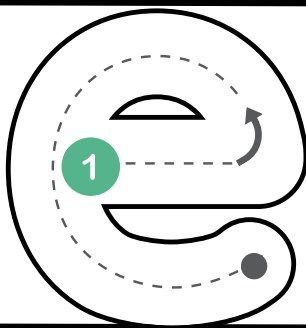

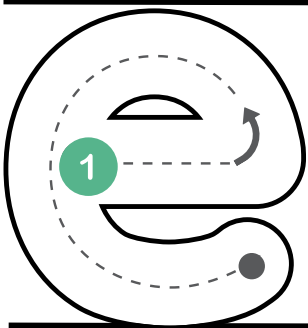

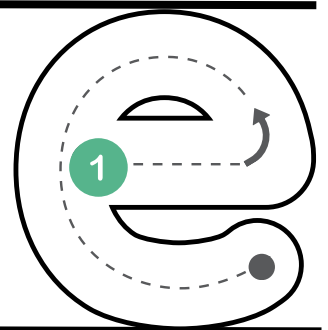

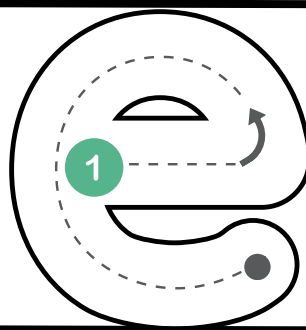

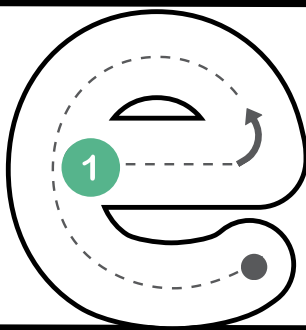

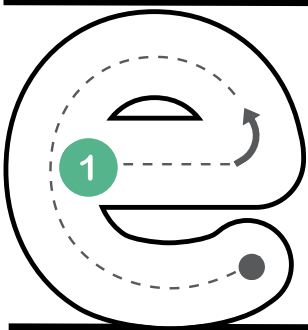

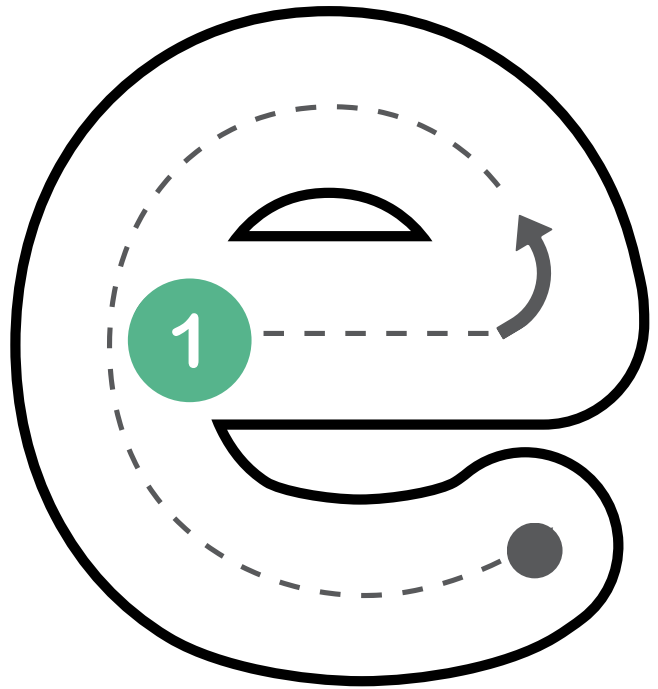

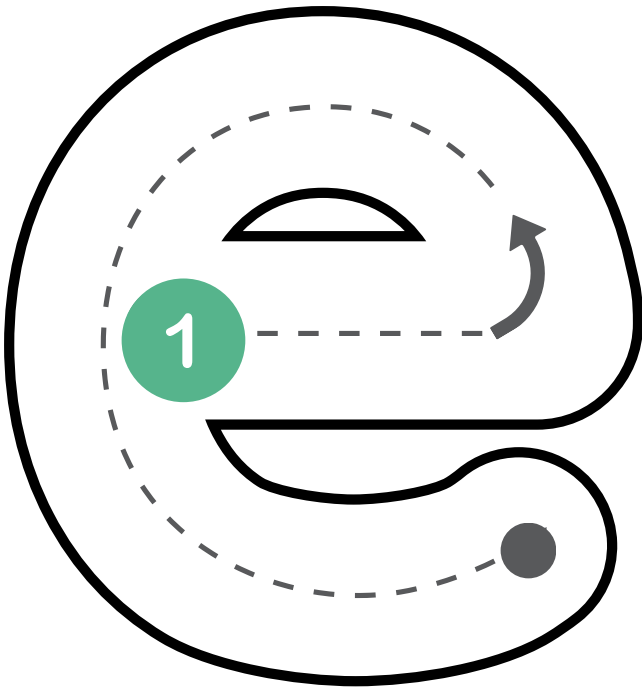

# HOOK

## Letters

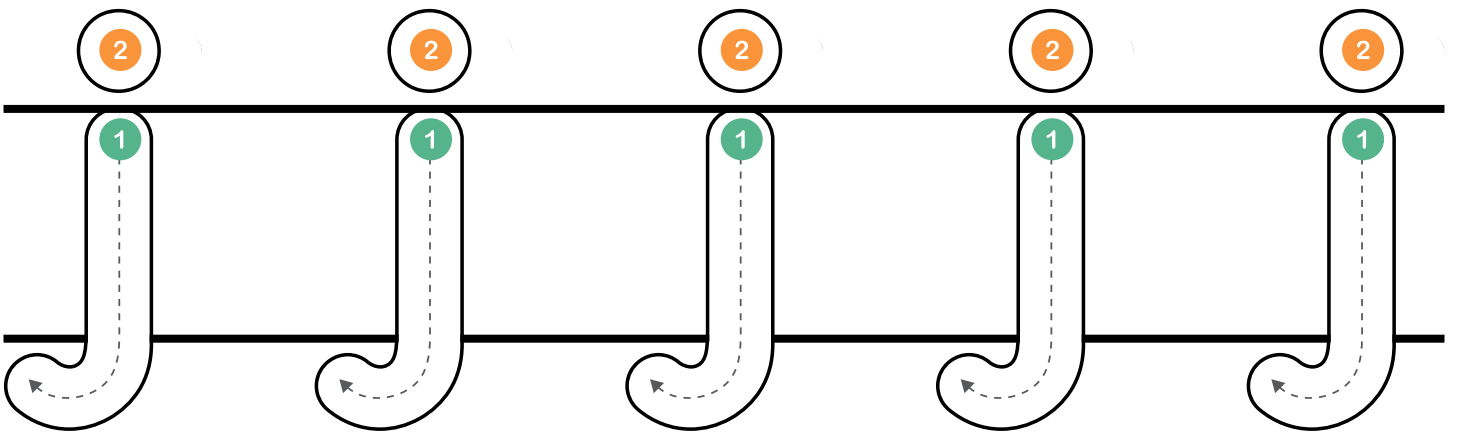

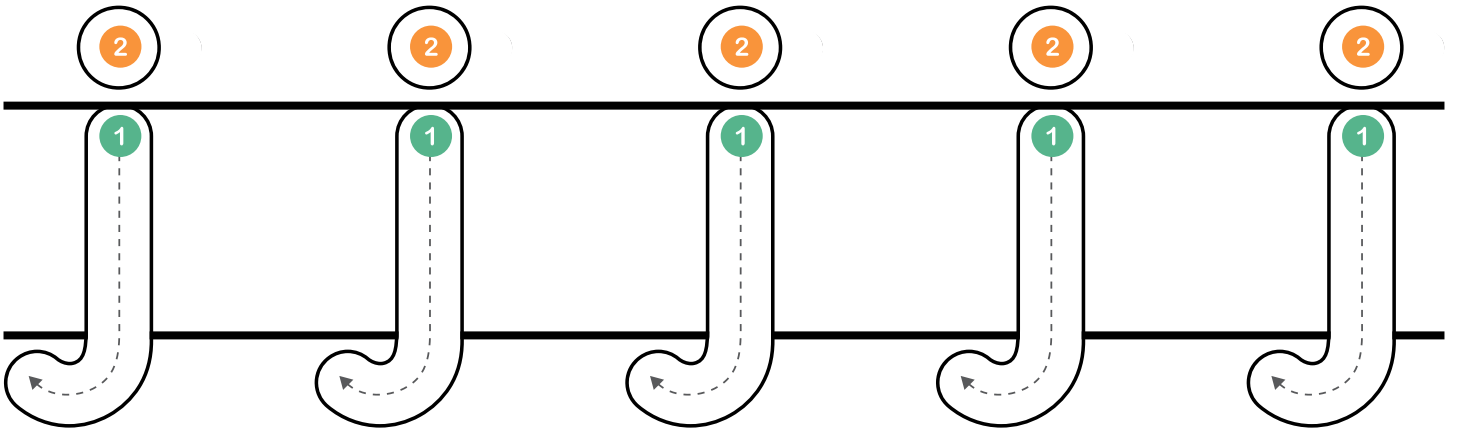

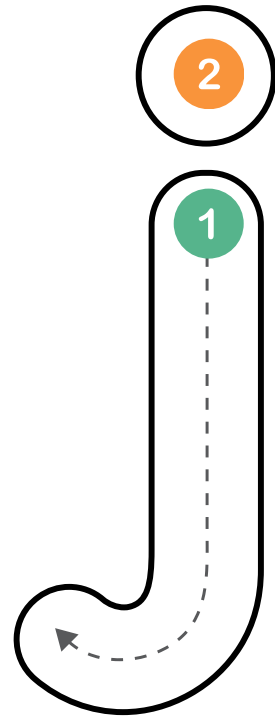

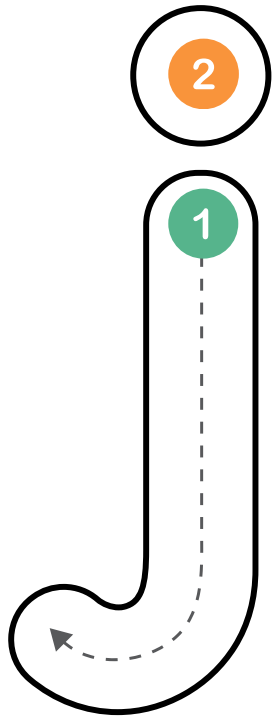

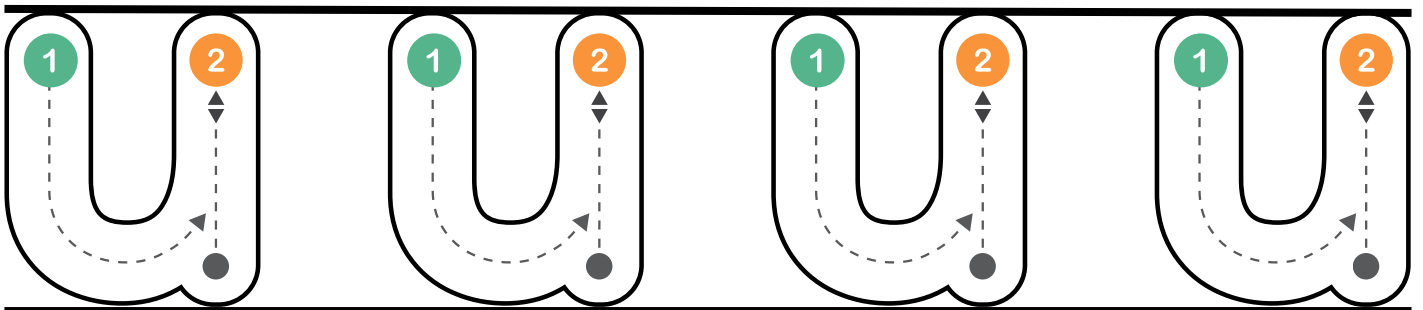

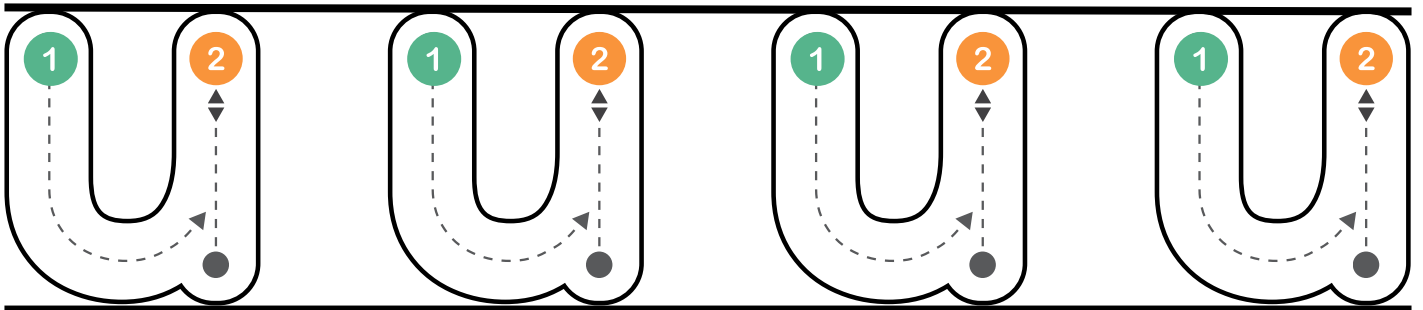

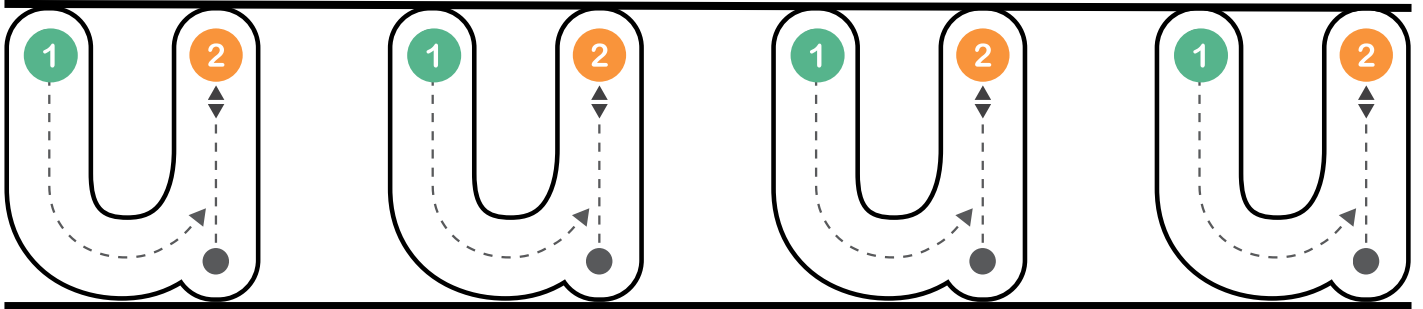

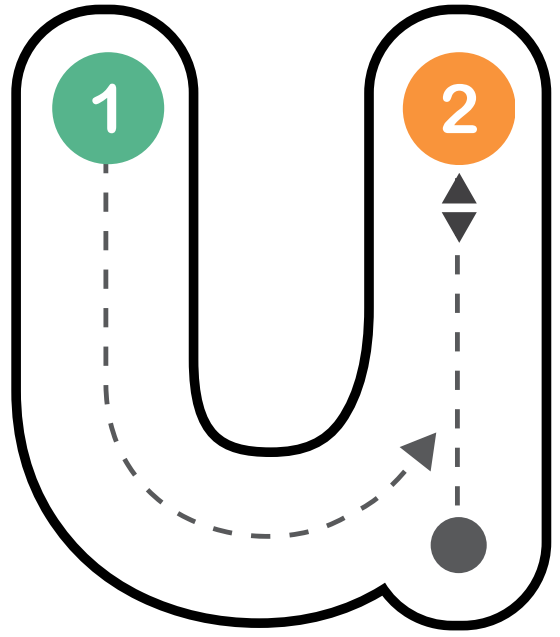

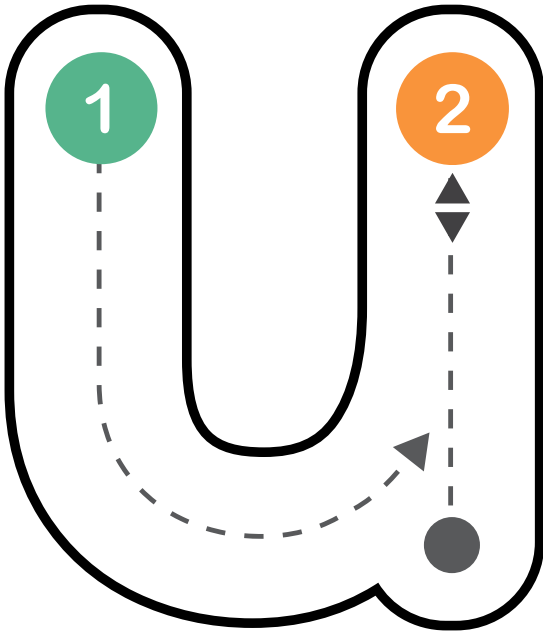

These letters combine a curve and a straight line, building on the Magic C concept and adding a vertical stroke.

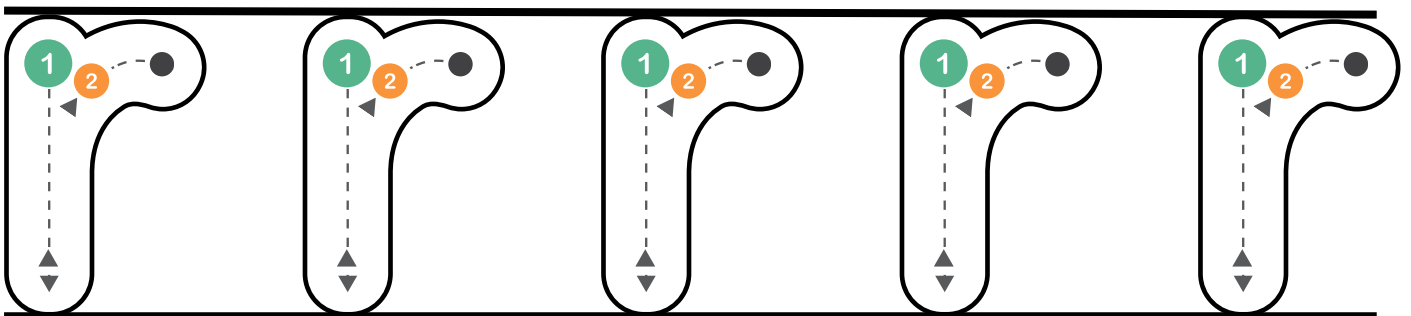

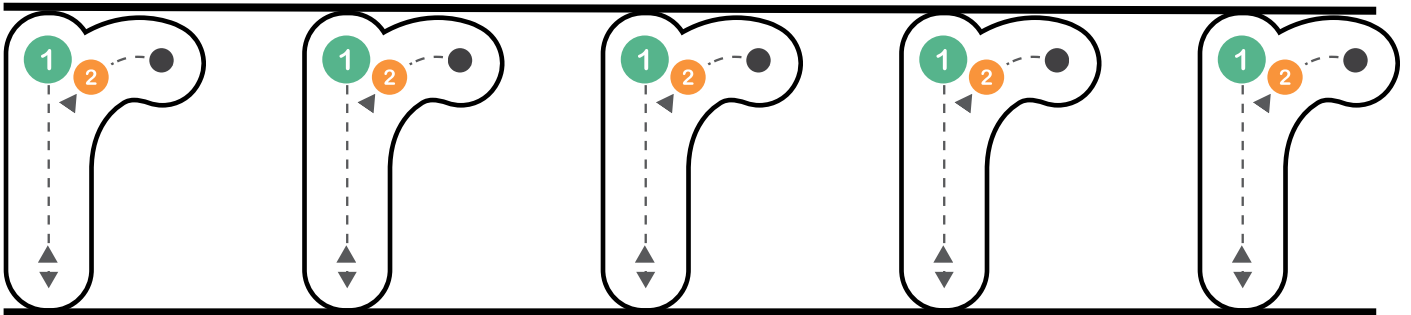

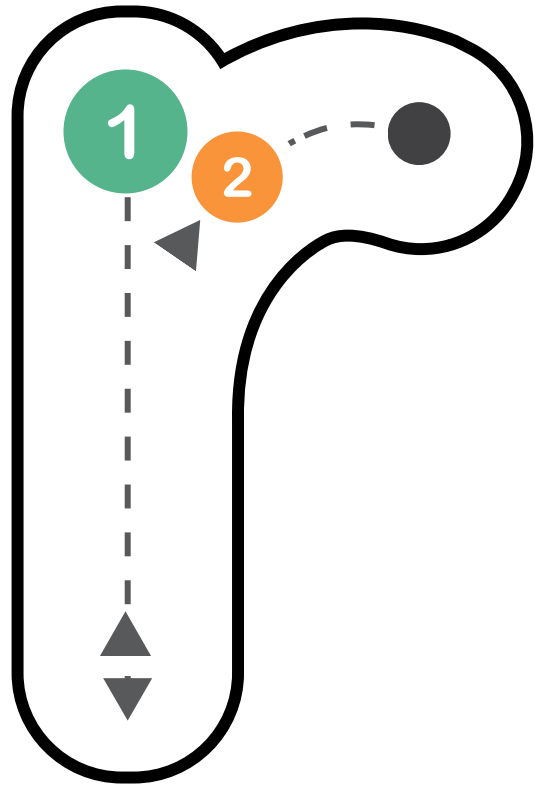

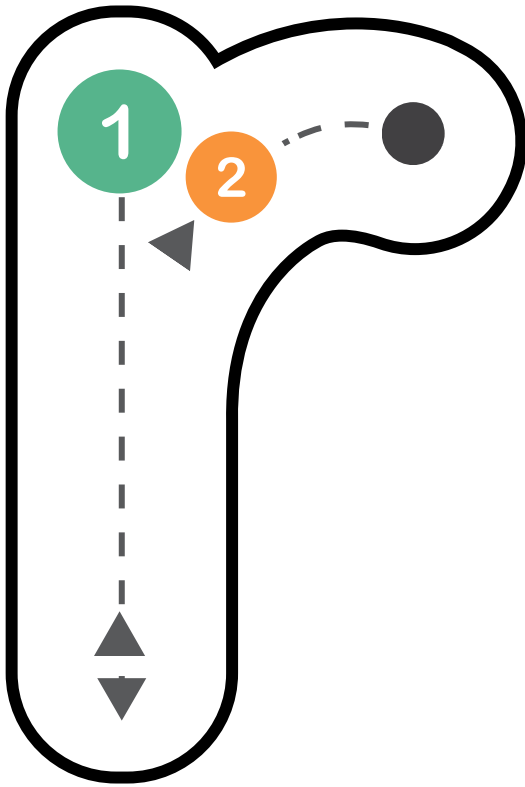

**j u r f**

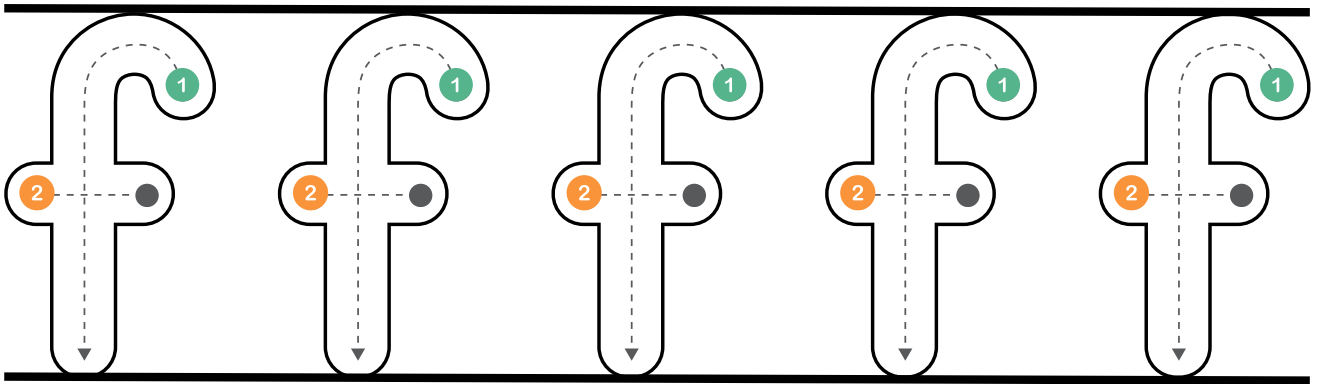

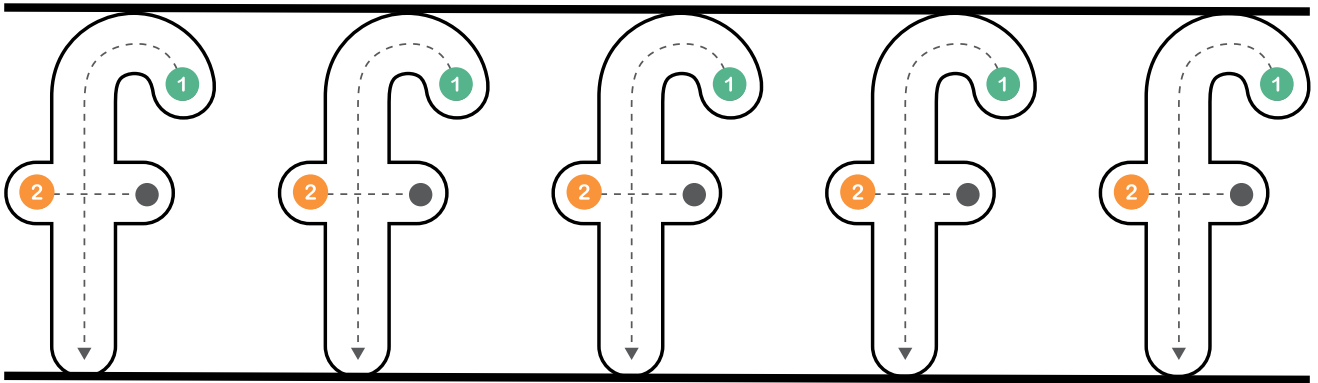

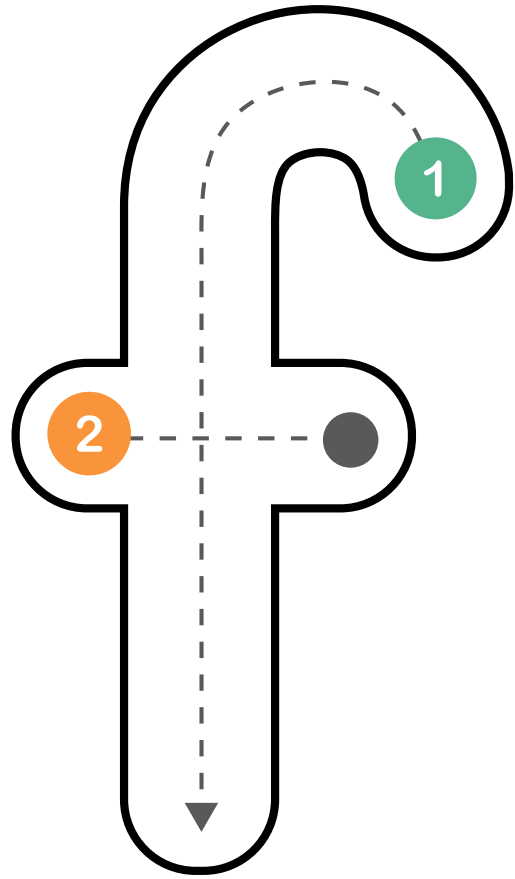

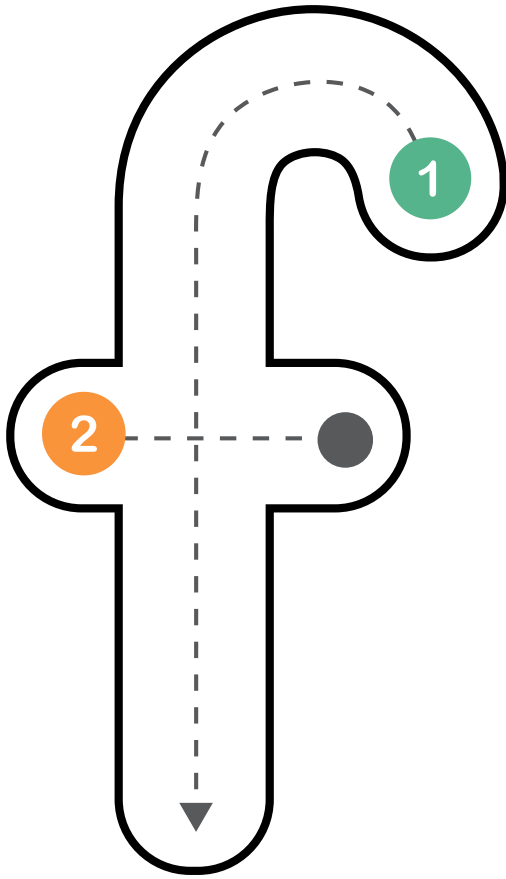

# HILL

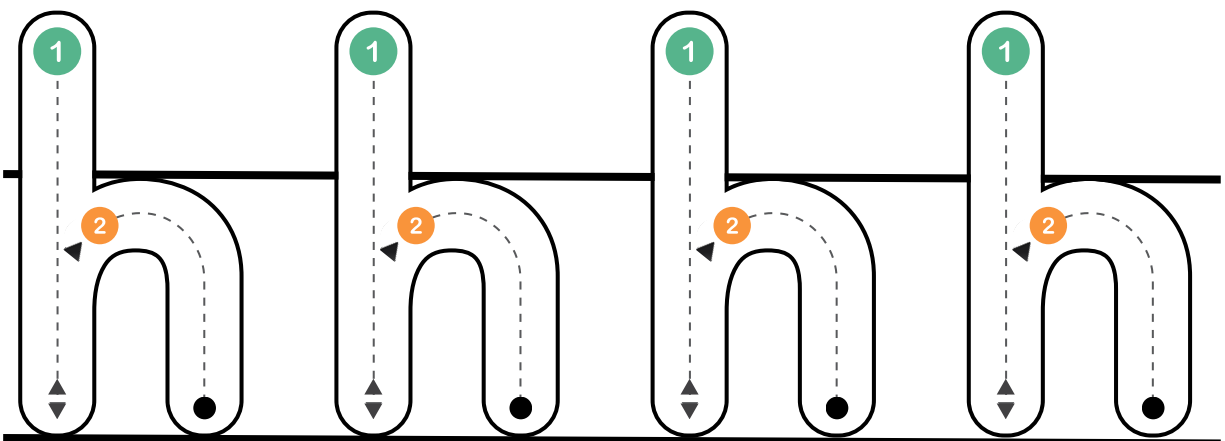

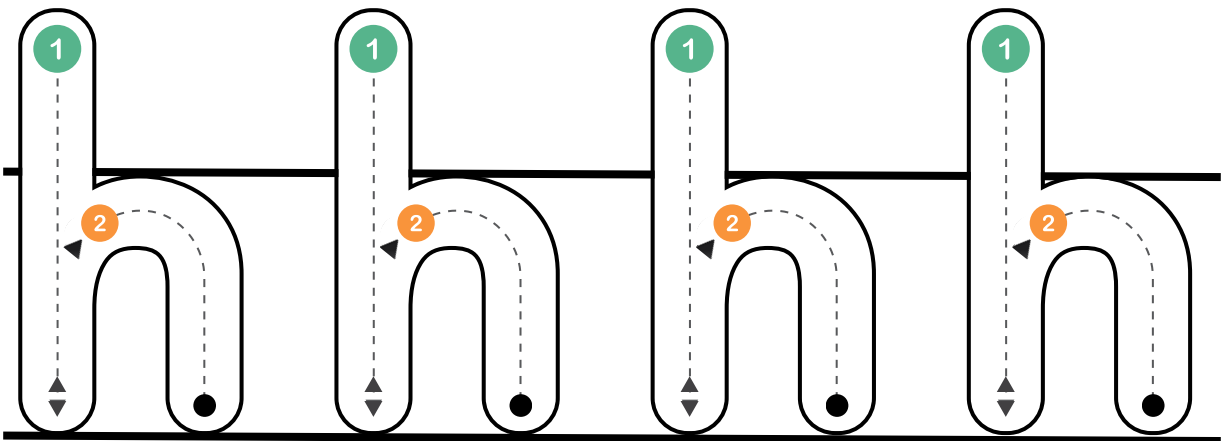

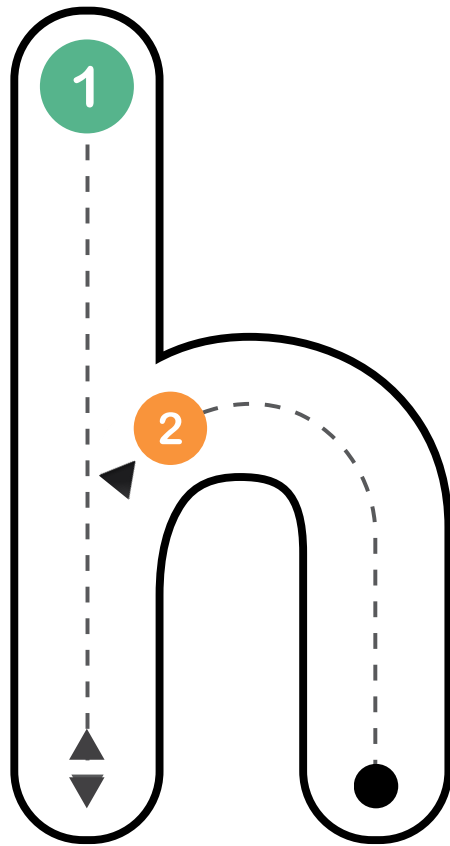

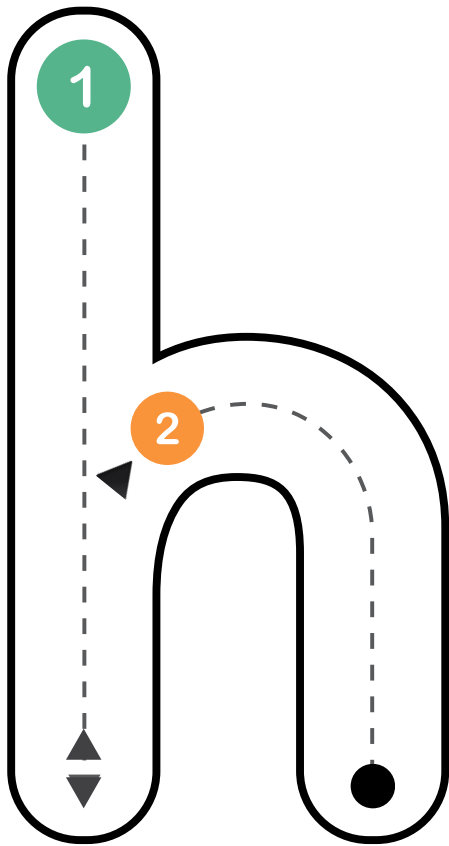

## Letters

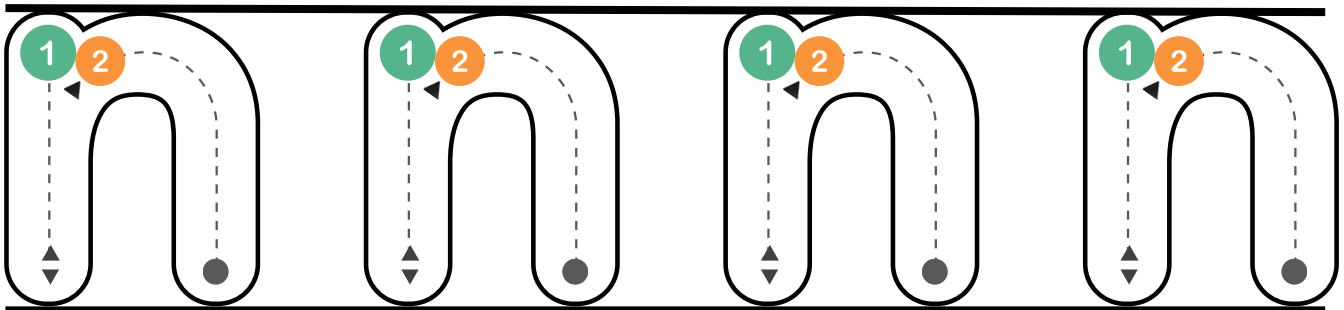

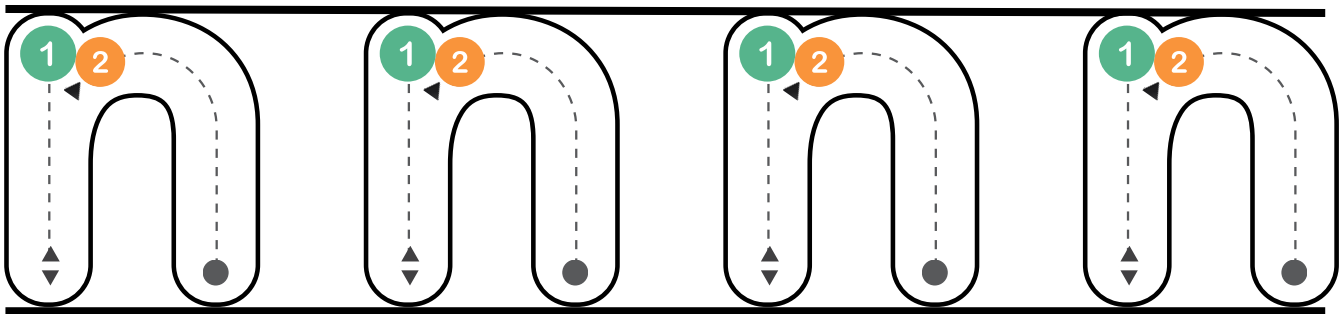

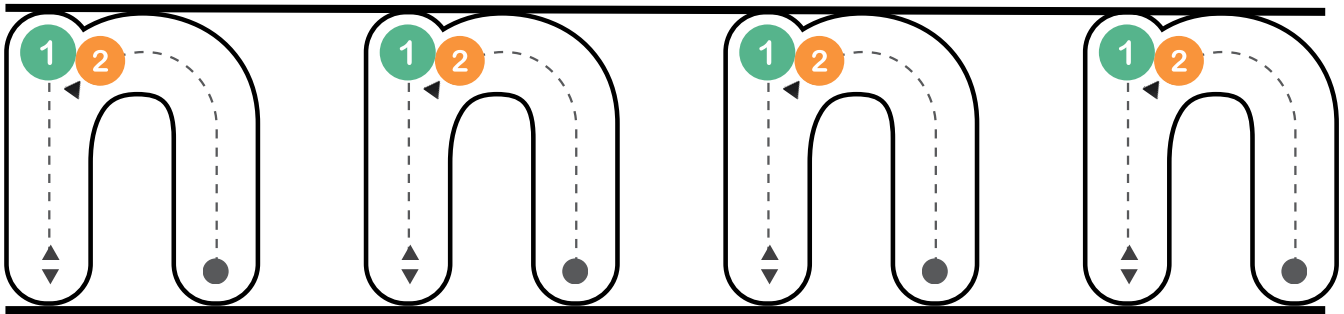

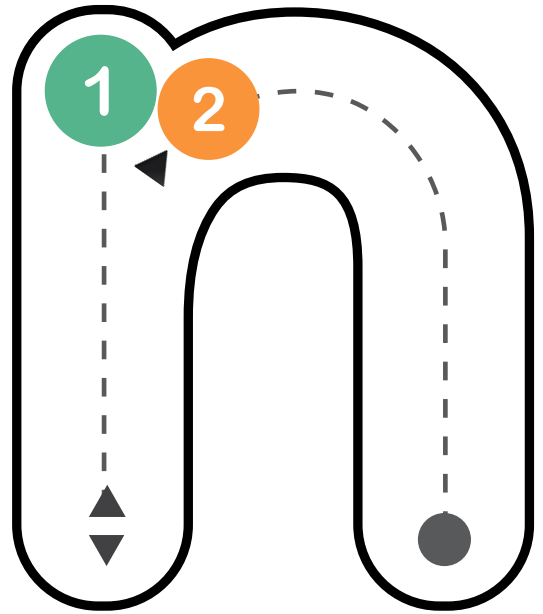

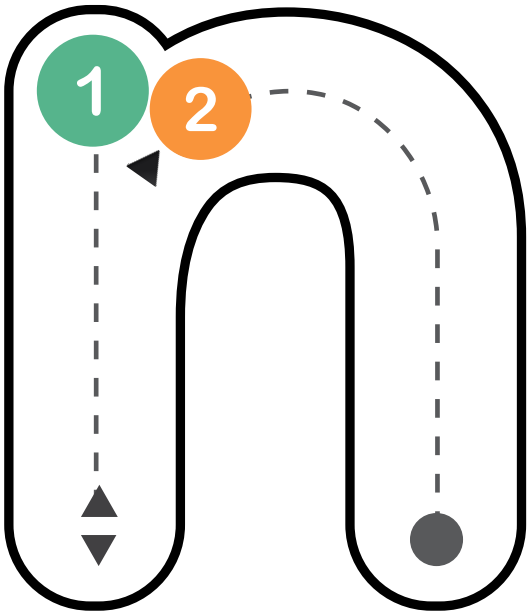

These involve making "hills" or arches,  
which are common in many letters.

**h n m b p**

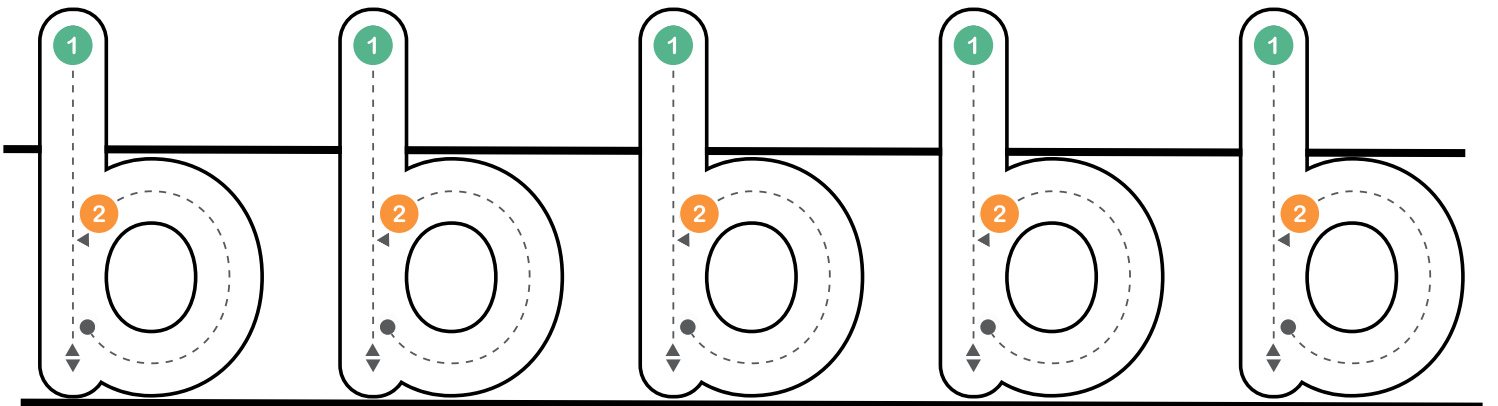

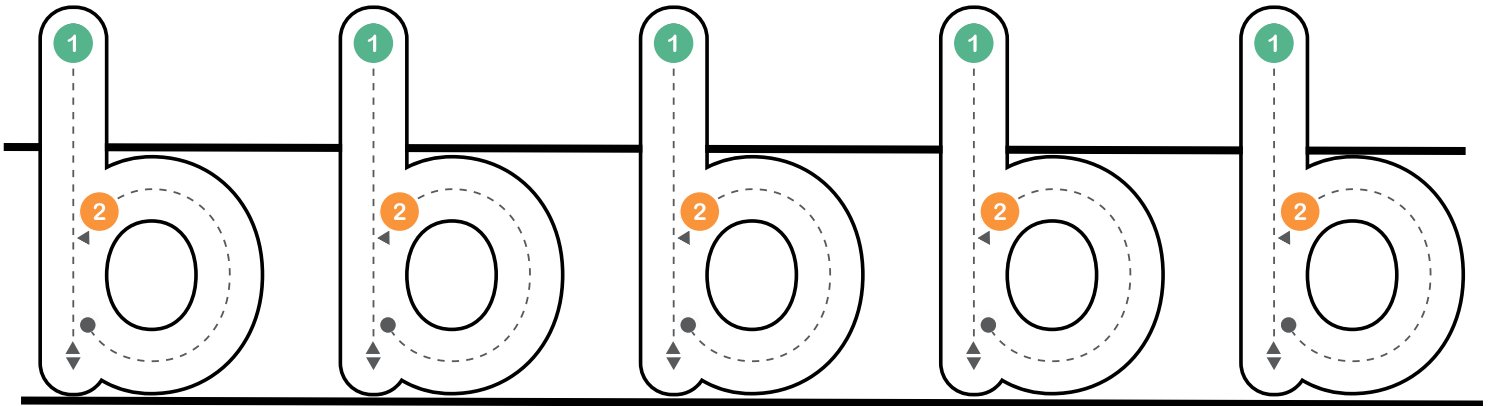

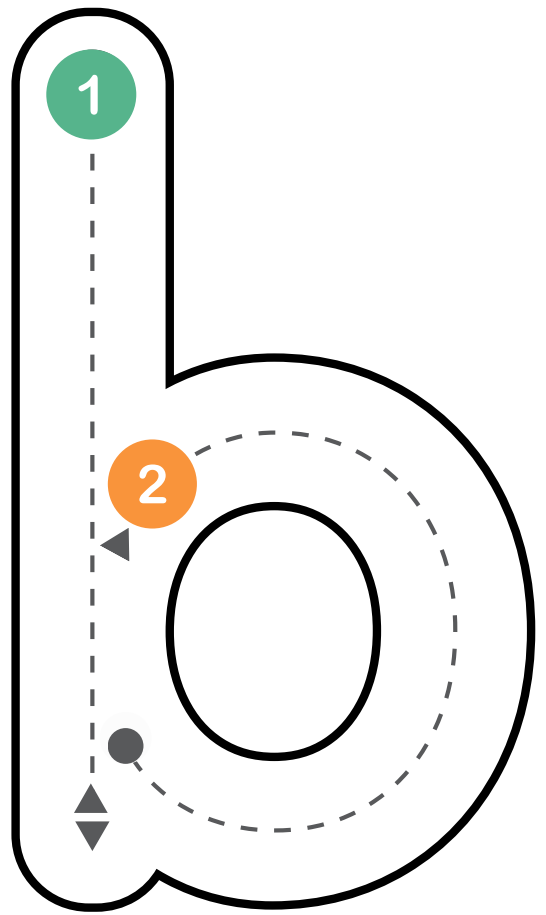

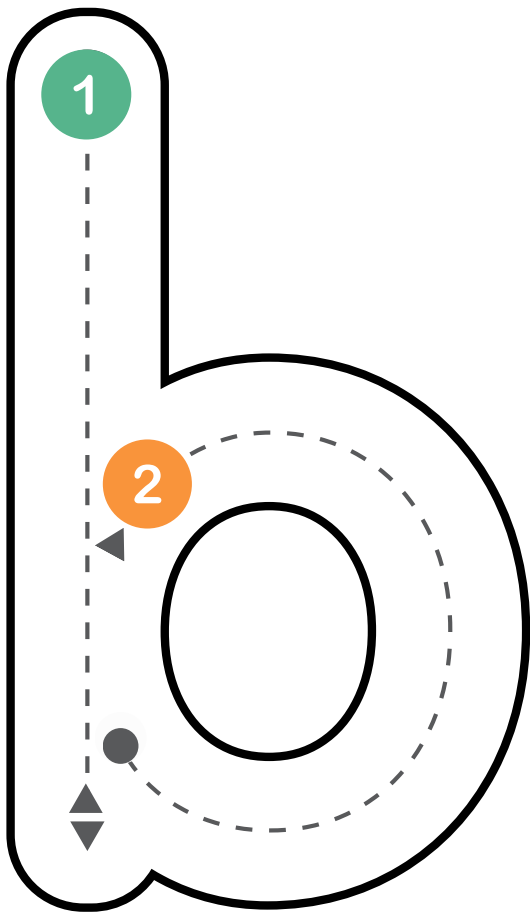

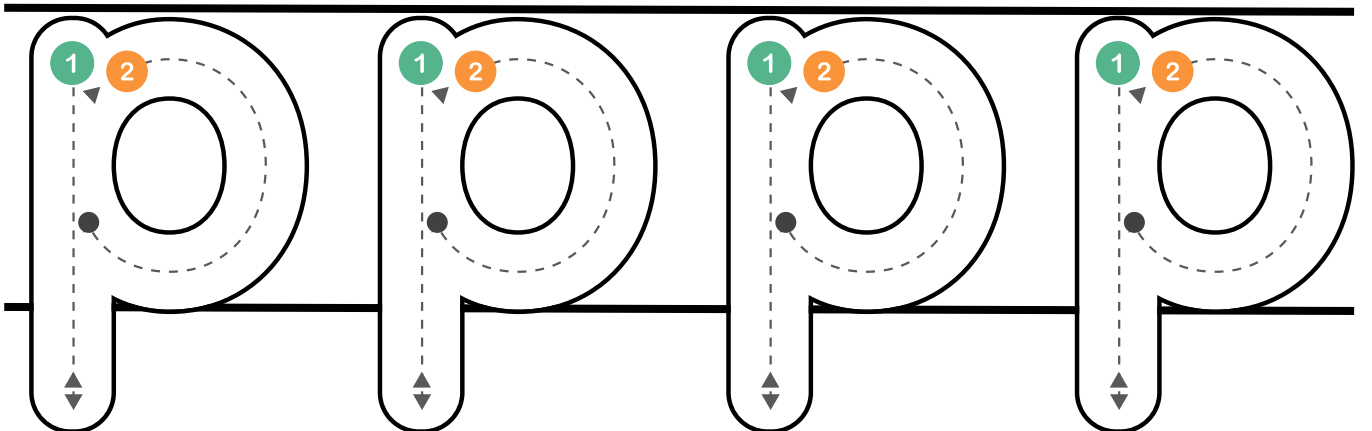

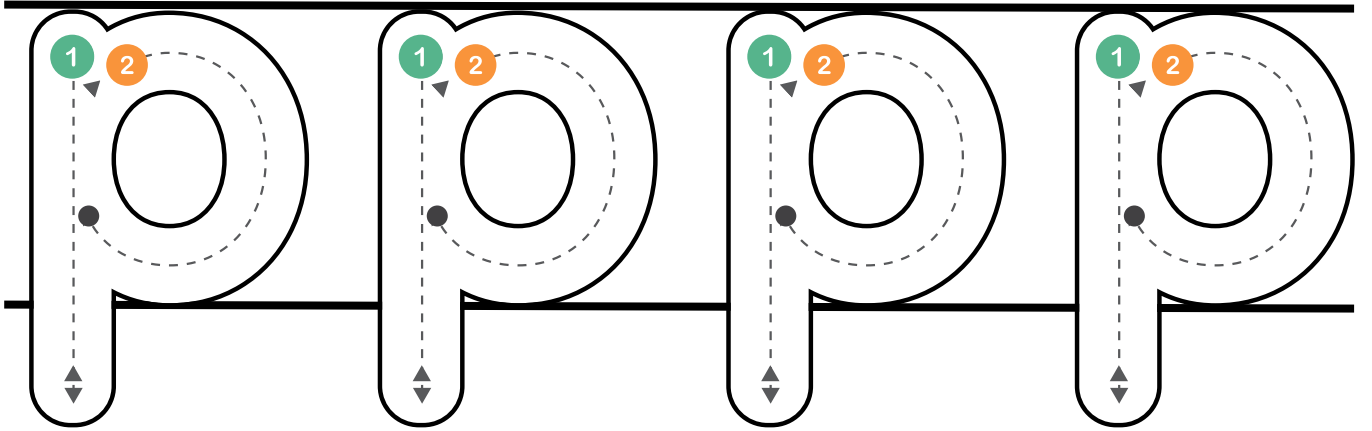

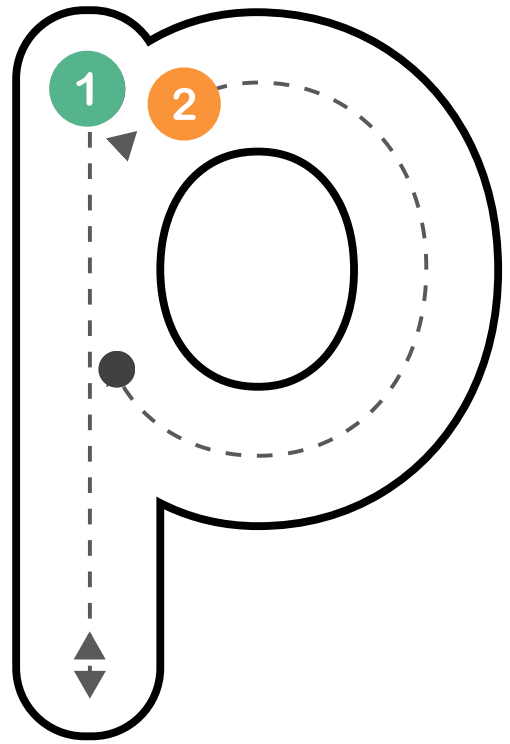

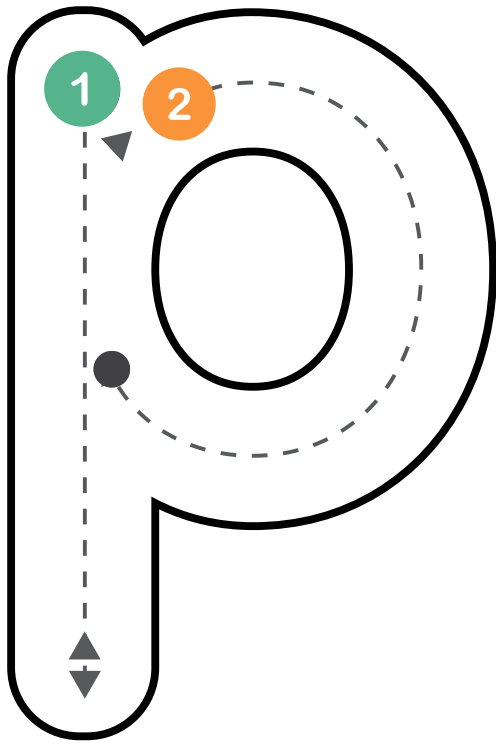

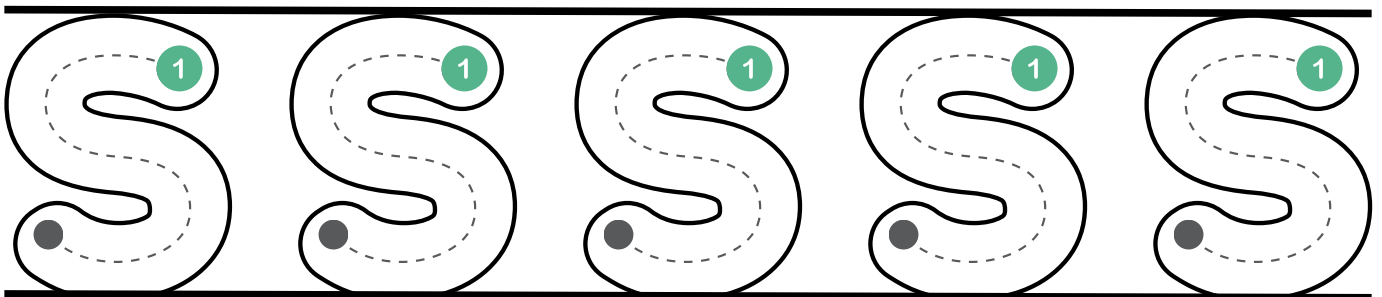

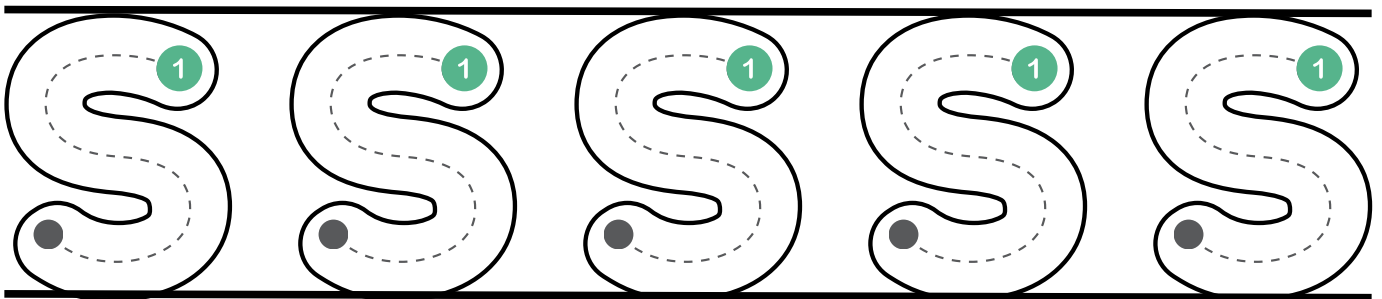

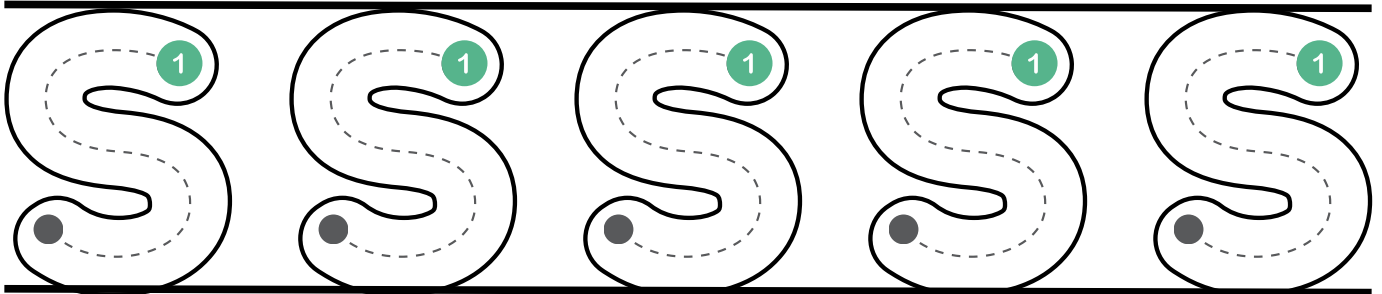

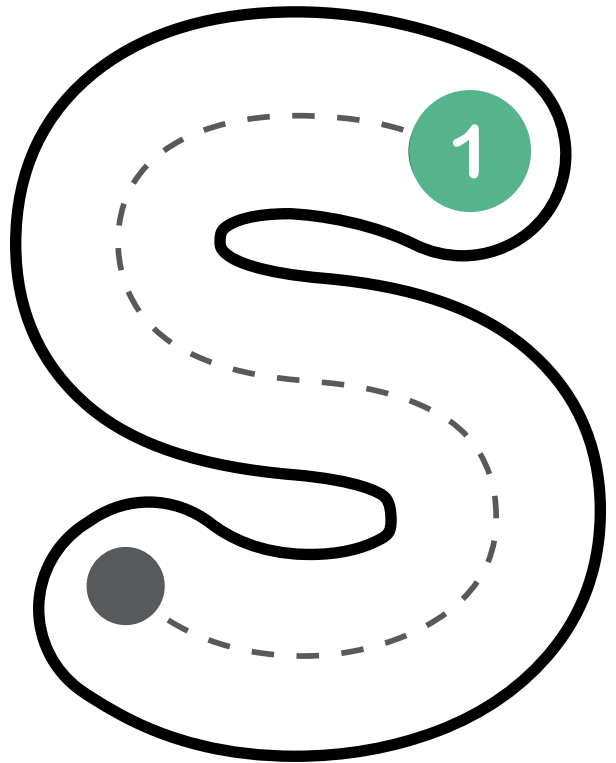

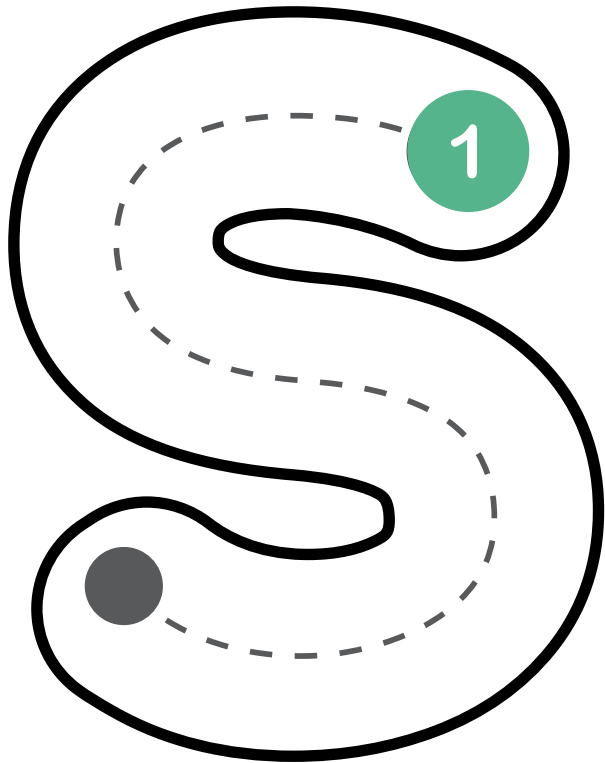

# DIAGONAL

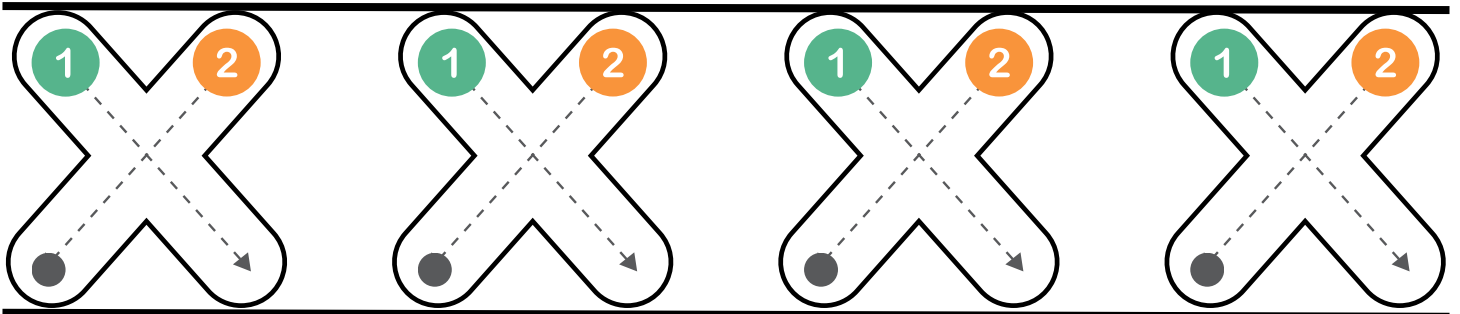

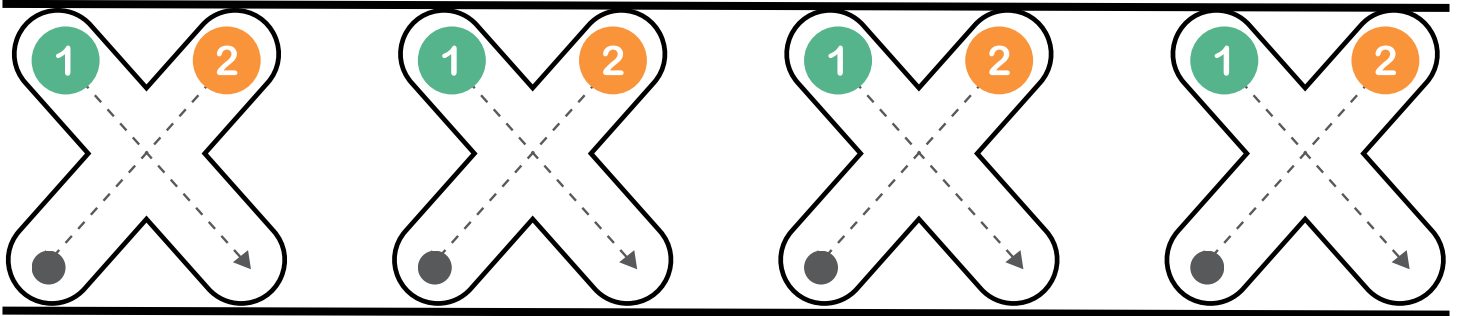

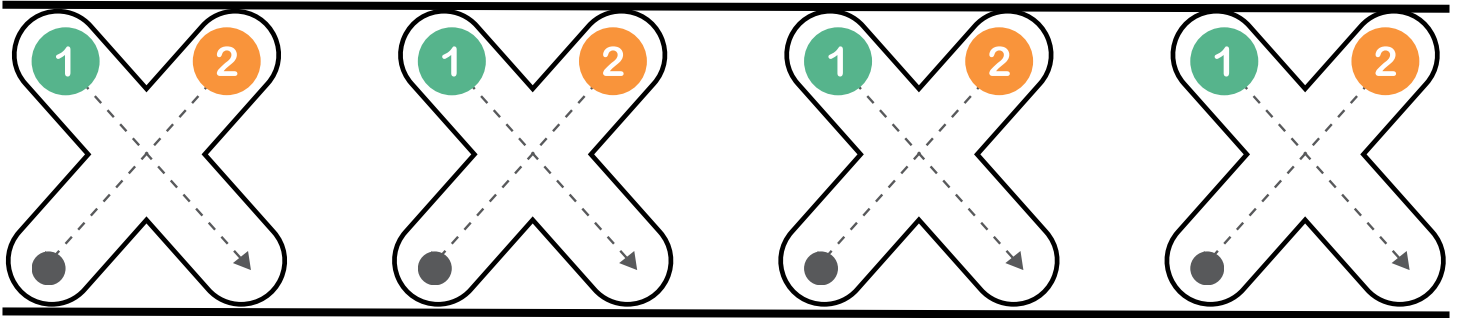

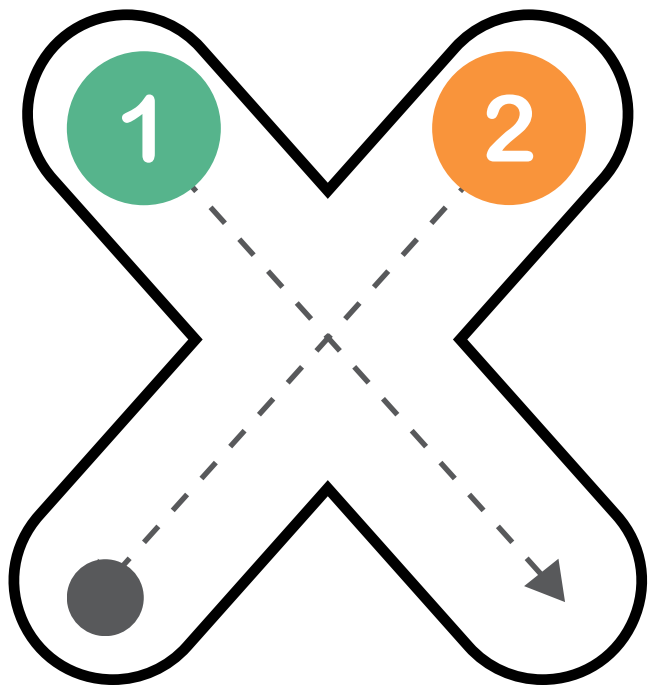

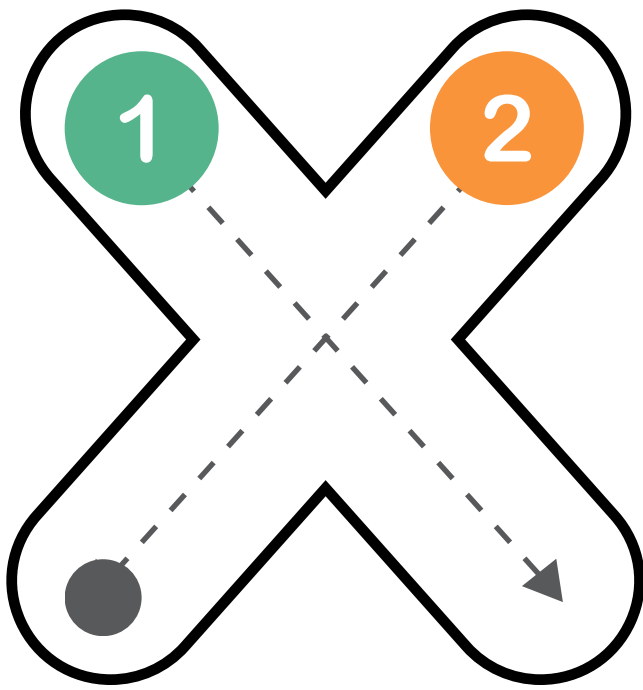

## Letters

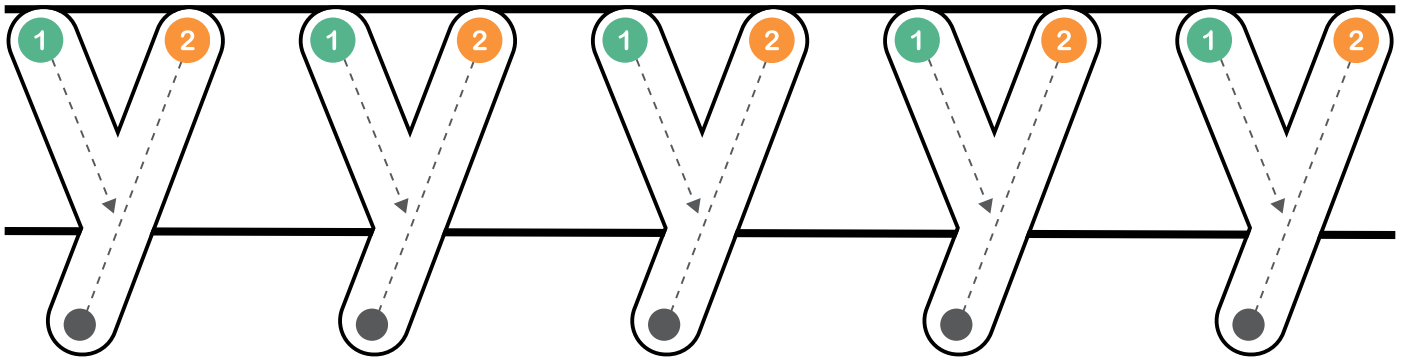

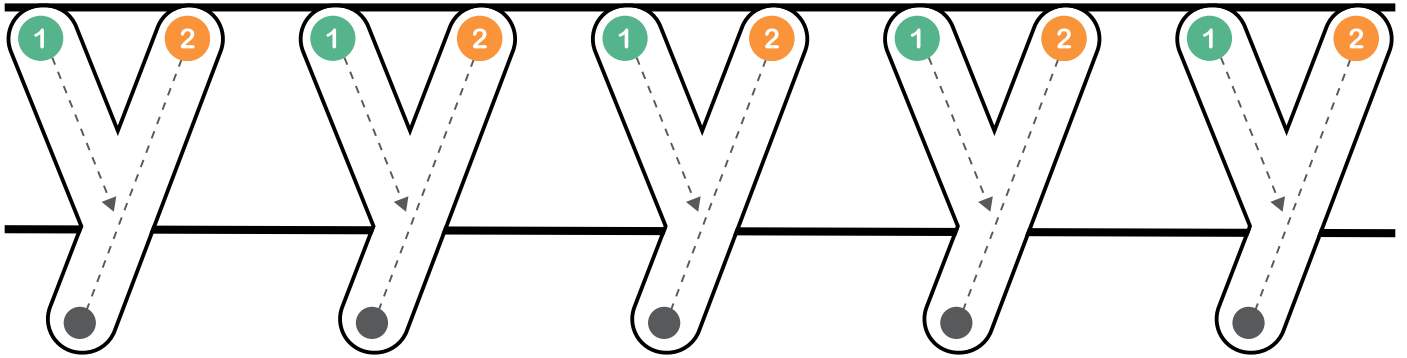

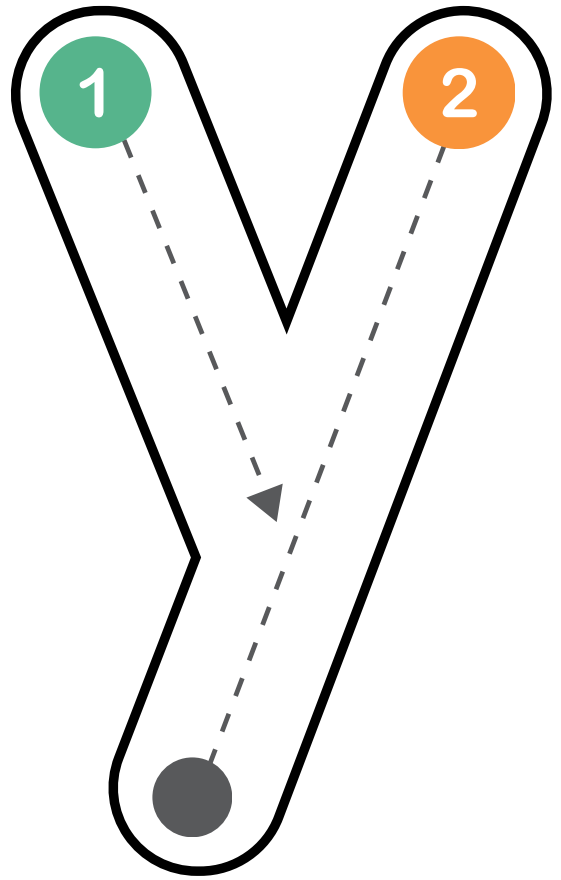

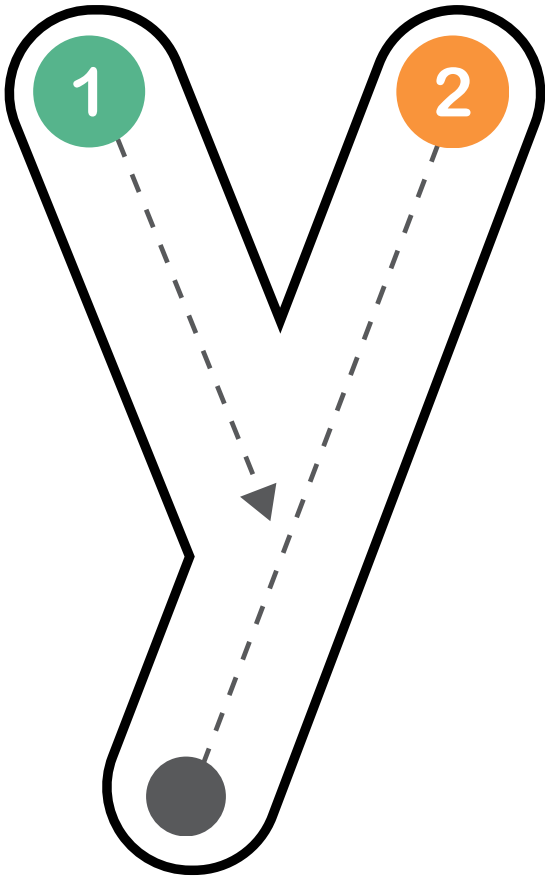

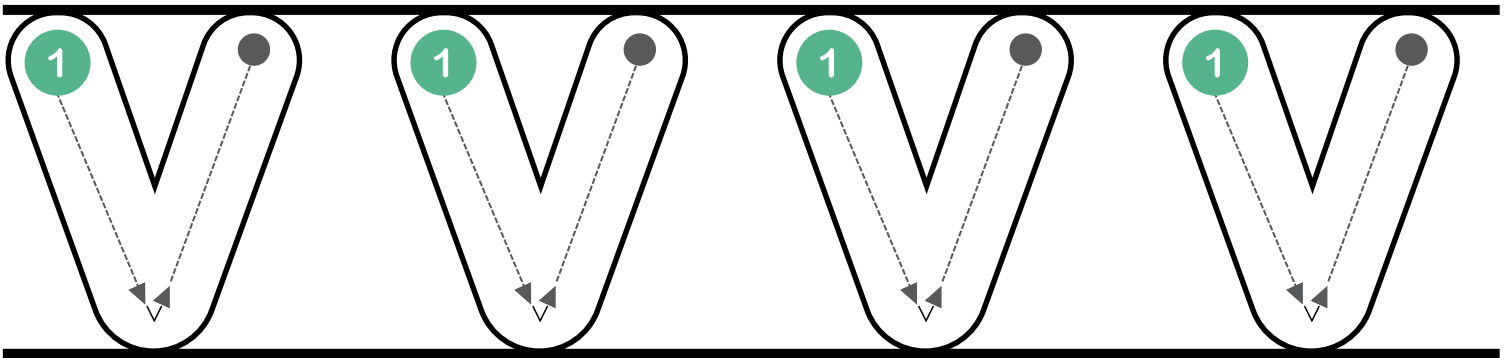

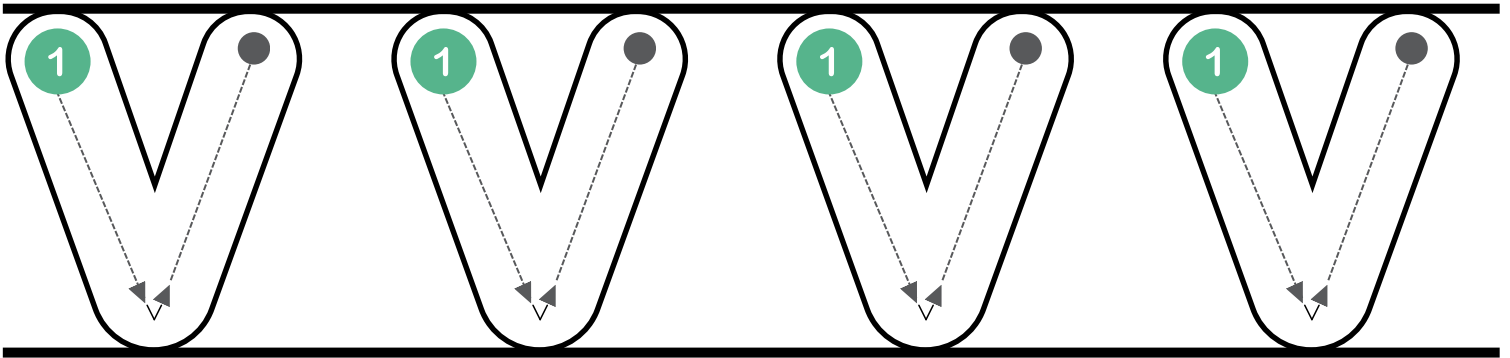

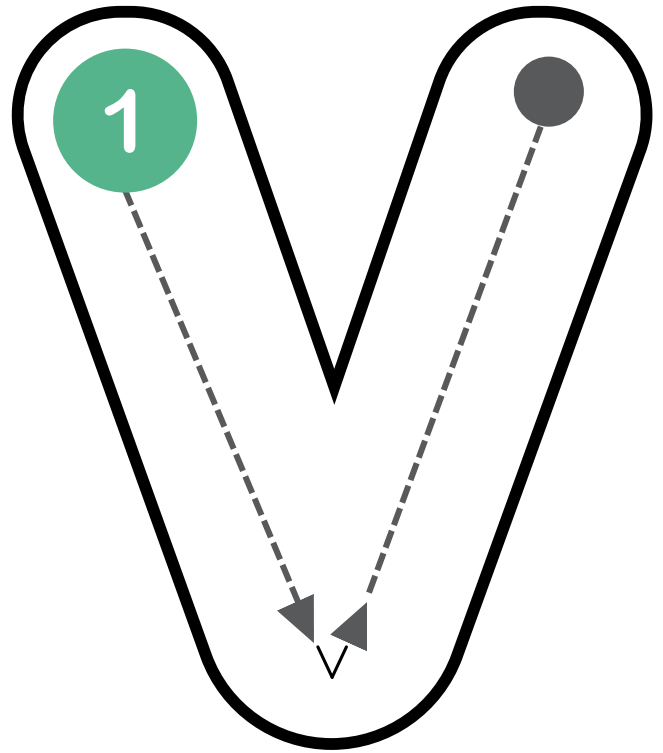

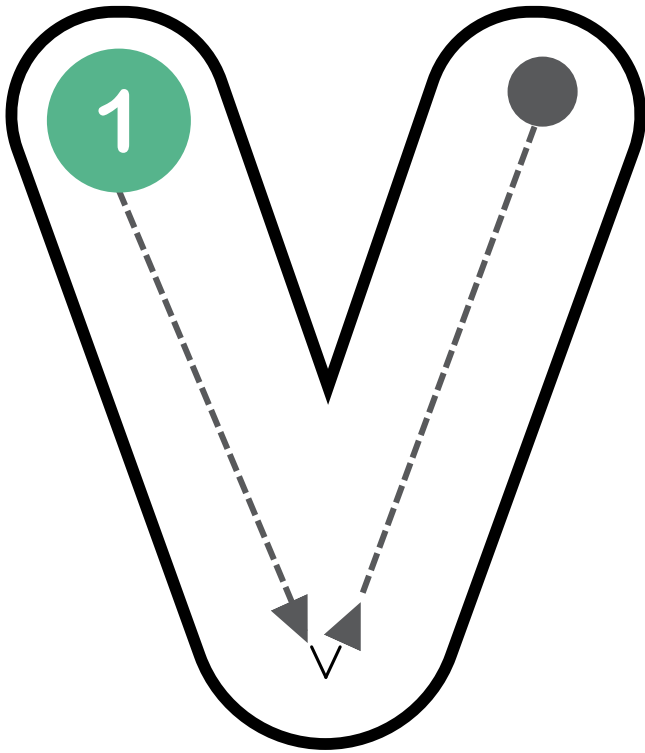

These involve diagonal lines, which are slightly more complex to control.

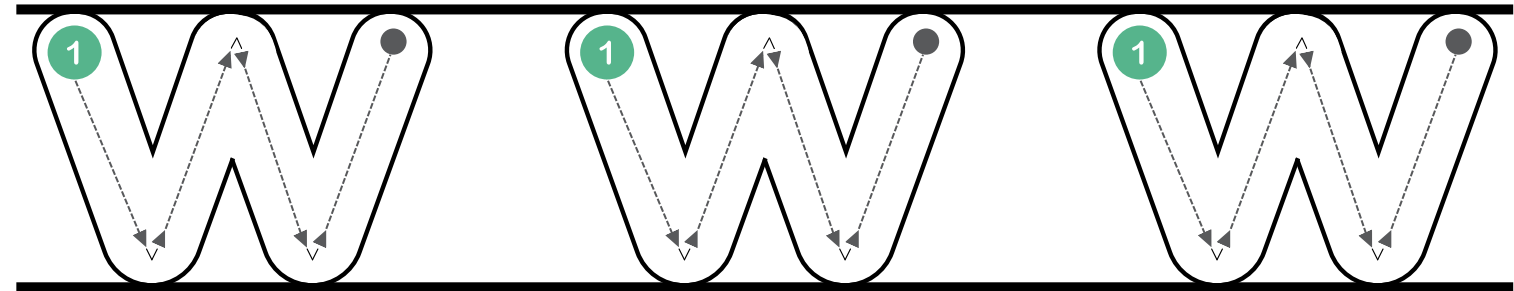

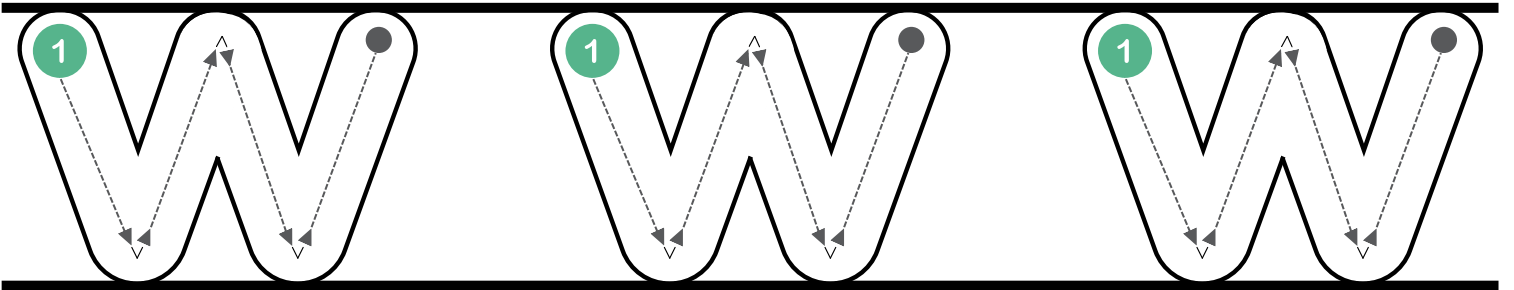

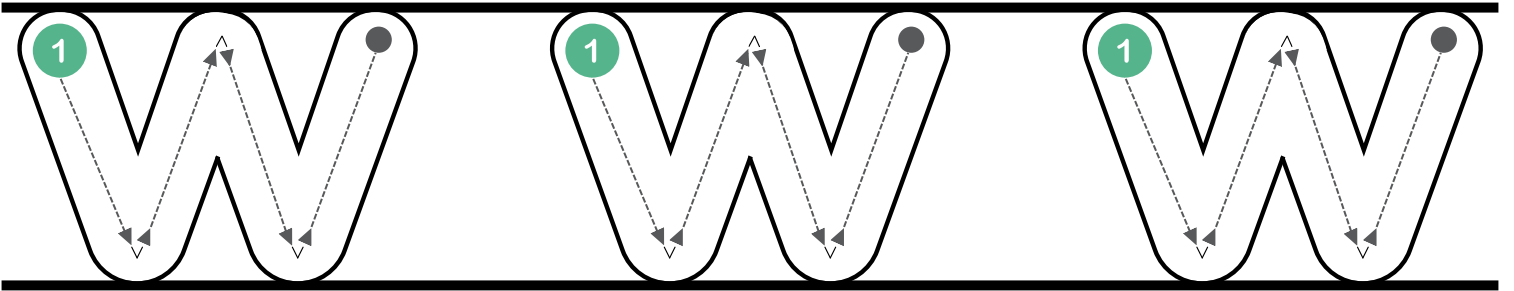

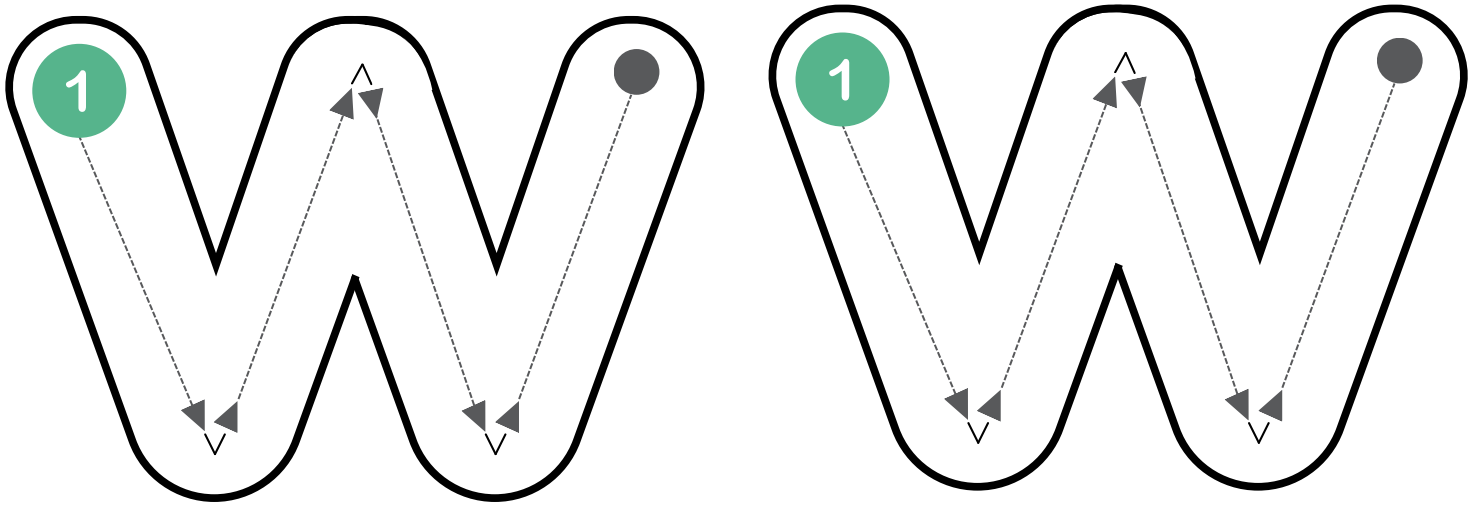

**x y v w k z**

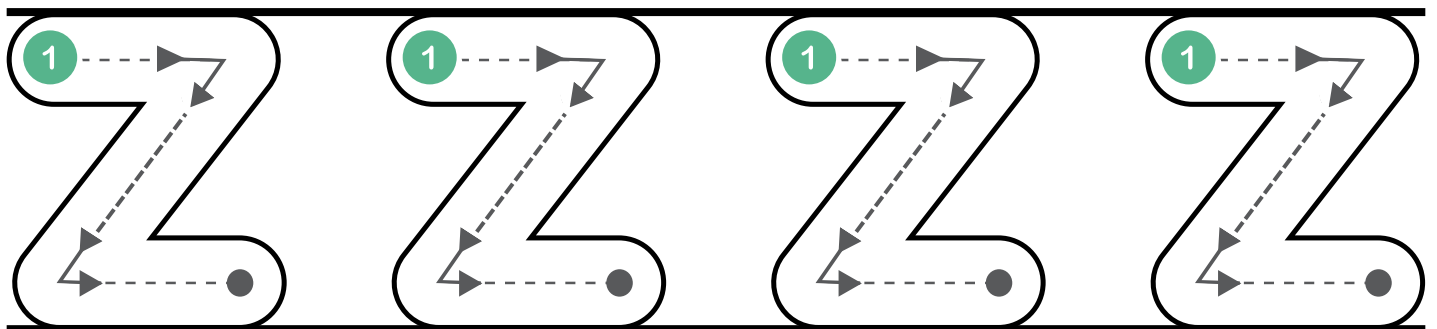

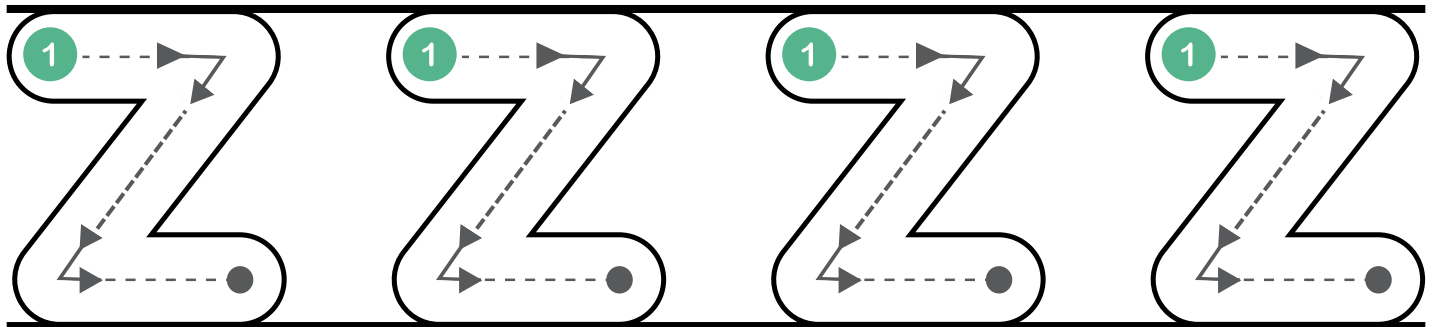

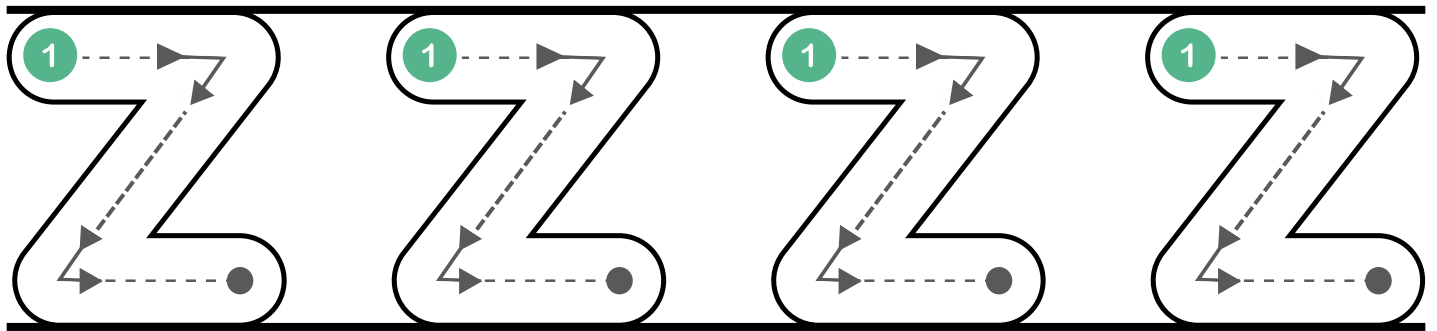

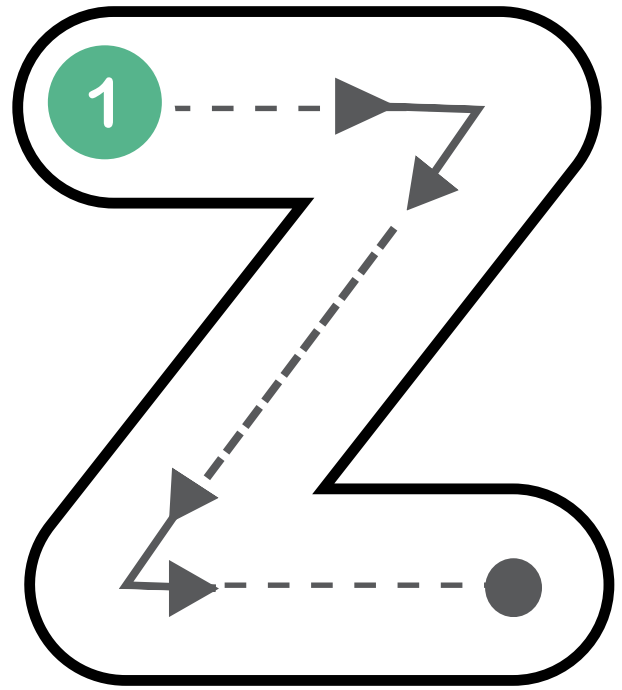

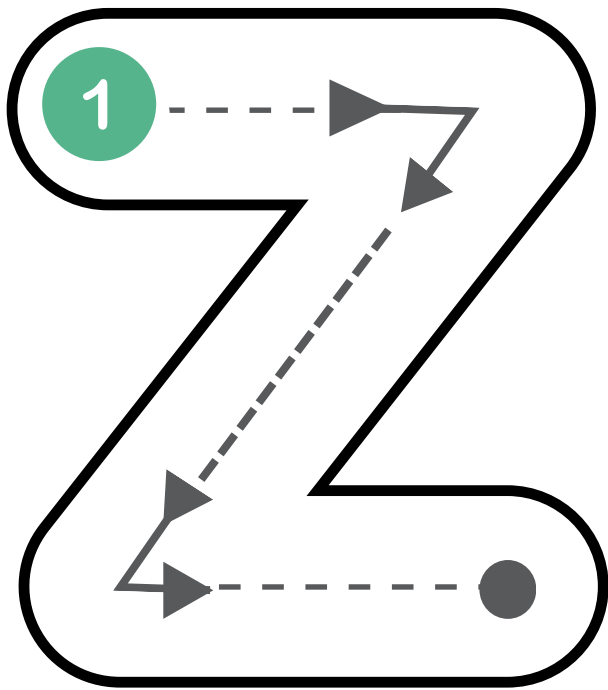

# PRACTICE

## Sheets

These sheets provide extra practice with the lowercase letters learned in this packet. The sheet with the words uses a sentence that has all the letters in the alphabet. It starts with large letters and then offers a smaller option. The sheet with the lines provides additional space to practice difficult letters or create your own sentences.
